PROJECTS

HML

SMART HOME MAINTENANCE PLATFORM IN THE UAE

Sector: Home Services
Client: Bin Lahij Trading–HML

PROJECT OVERVIEW:

HML is a smart platform for home maintenance. Blue Tech built a complete digital system for fast booking, technician management, and high-quality service execution — including brand identity, website, mobile apps, and admin dashboard.

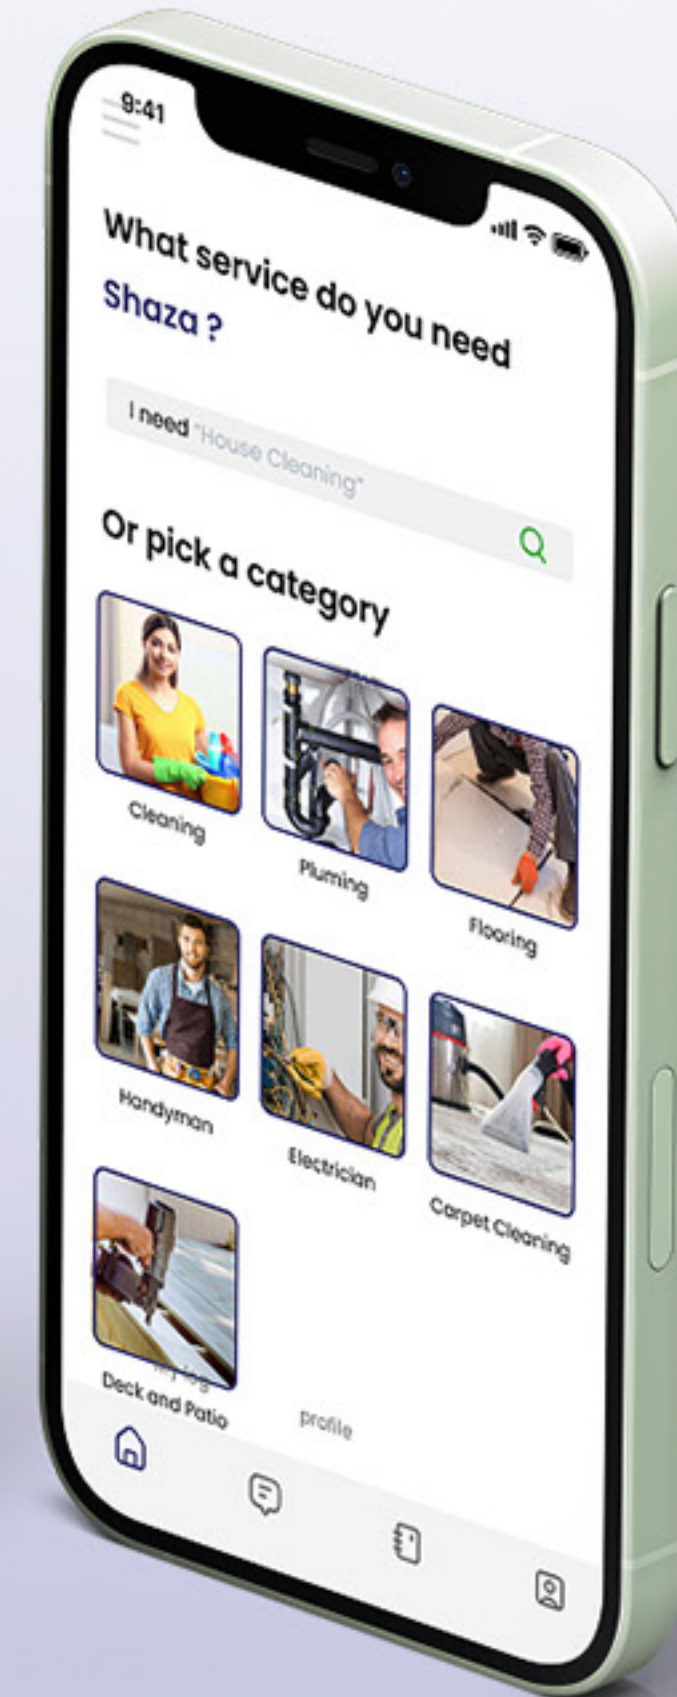

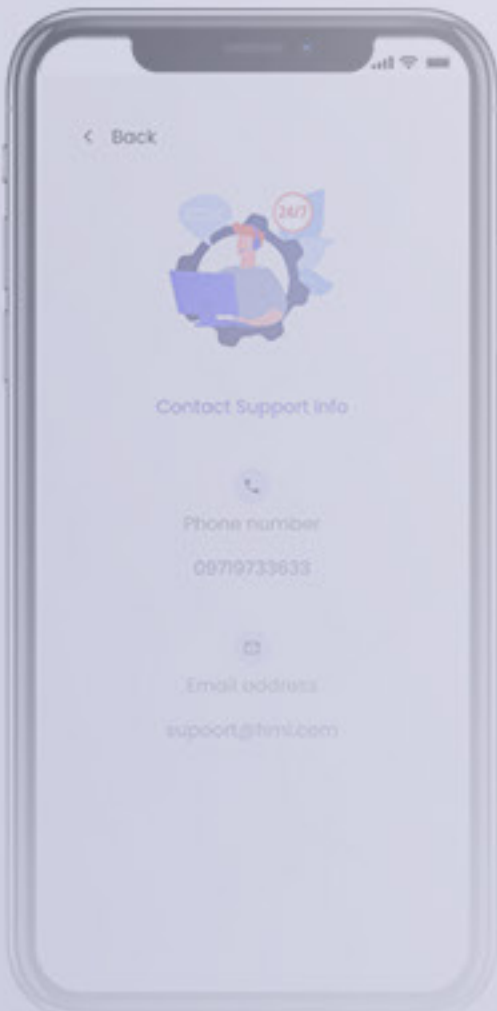

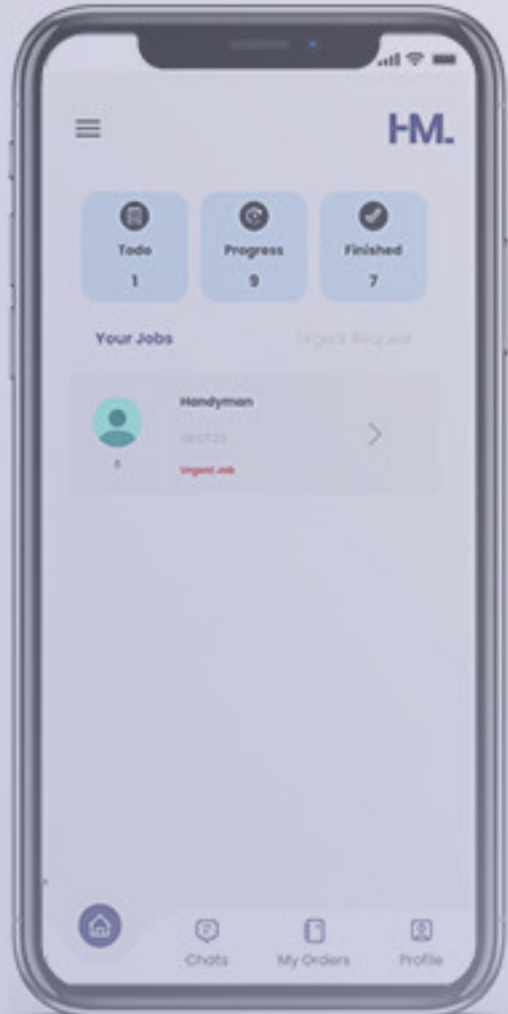

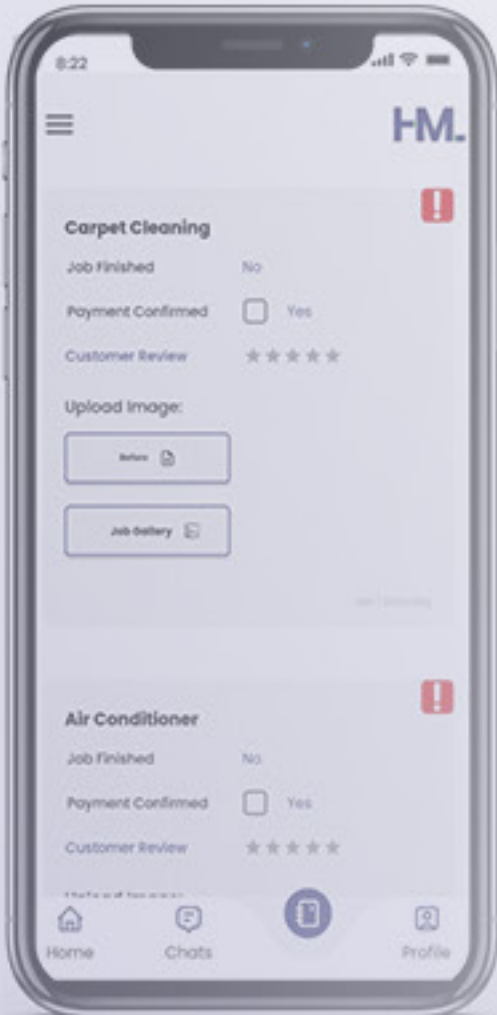

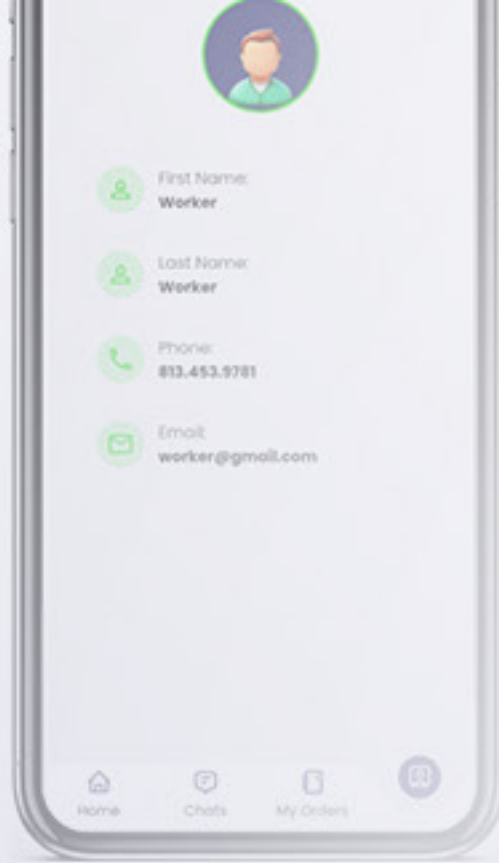

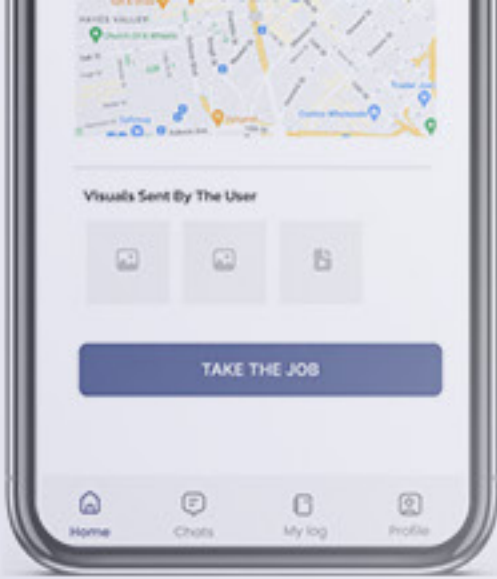

CHALLENGE:

Frequent service delays due to the lack of a digital system for order tracking and technician dispatch.

CUSTOM APPLICATIONS FOR CLIENTS & TECHNICIANS:

- **CUSTOMER APP:** Enables direct service booking, location selection, scheduling, and secure online payment.
- **TECHNICIAN APP:** Provides technicians with job assignments, status updates, and real-time notifications.

BRAND IDENTITY & UI/UX DESIGN:

Professional logo, color palette, and print identity, combined with intuitive, user friendly interfaces for smooth interaction.

CENTRAL ADMIN DASHBOARD:

Centralized system for technician management, order tracking, analytics, and performance reports, with integrated secure payment gateway and real-time notifications.

CORPORATE WEBSITE:

Professional digital presence representing HML's brand identity, showcasing services clearly, providing a communication channel, and acting as a gateway linking customers to the platform and apps.

- # 60% RESULTS:
- faster response time.
 - Reduced manual errors and booking conflicts.
 - Enhanced customer satisfaction and improved service experience.

SKILLS AND TOOLS USED:

TUTORI

SMART EDUCATIONAL PLATFORM

PROJECT STORY:

TUTORI is Kuwait's first smart educational platform designed to connect students with institutes. It helps students find and join the right institute safely and easily, whether for schools or universities.

KEY FEATURES:

- Mobile app for students to explore, compare, and enroll in courses
- Dedicated dashboard for each institute to manage schedules and registrations
- Centralized admin dashboard for full system control and monitoring

MOBILE APP FOR SCHOOL & UNIVERSITY STUDENTS:

- Intelligent search for institutes and courses.
- Course, price, and options comparison.
- Instant booking and online payments via MyFatoorah.
- AI-powered support and guidance to answer student questions.
- Course, curriculum, and schedule management.
- Student enrollment and payment management.
- Direct communication with students.

UI/UX DESIGN:

Modern, intuitive, and straightforward interfaces that deliver a flexible, easy-to-use experience. The design focuses on a smooth user journey to maximize ease of use, engagement, and satisfaction.

INSTITUTE DASHBOARD:

Designed for institutes to manage courses, schedules, enrollments, and payments with real-time tracking and reports.

SUPER ADMIN DASHBOARD:

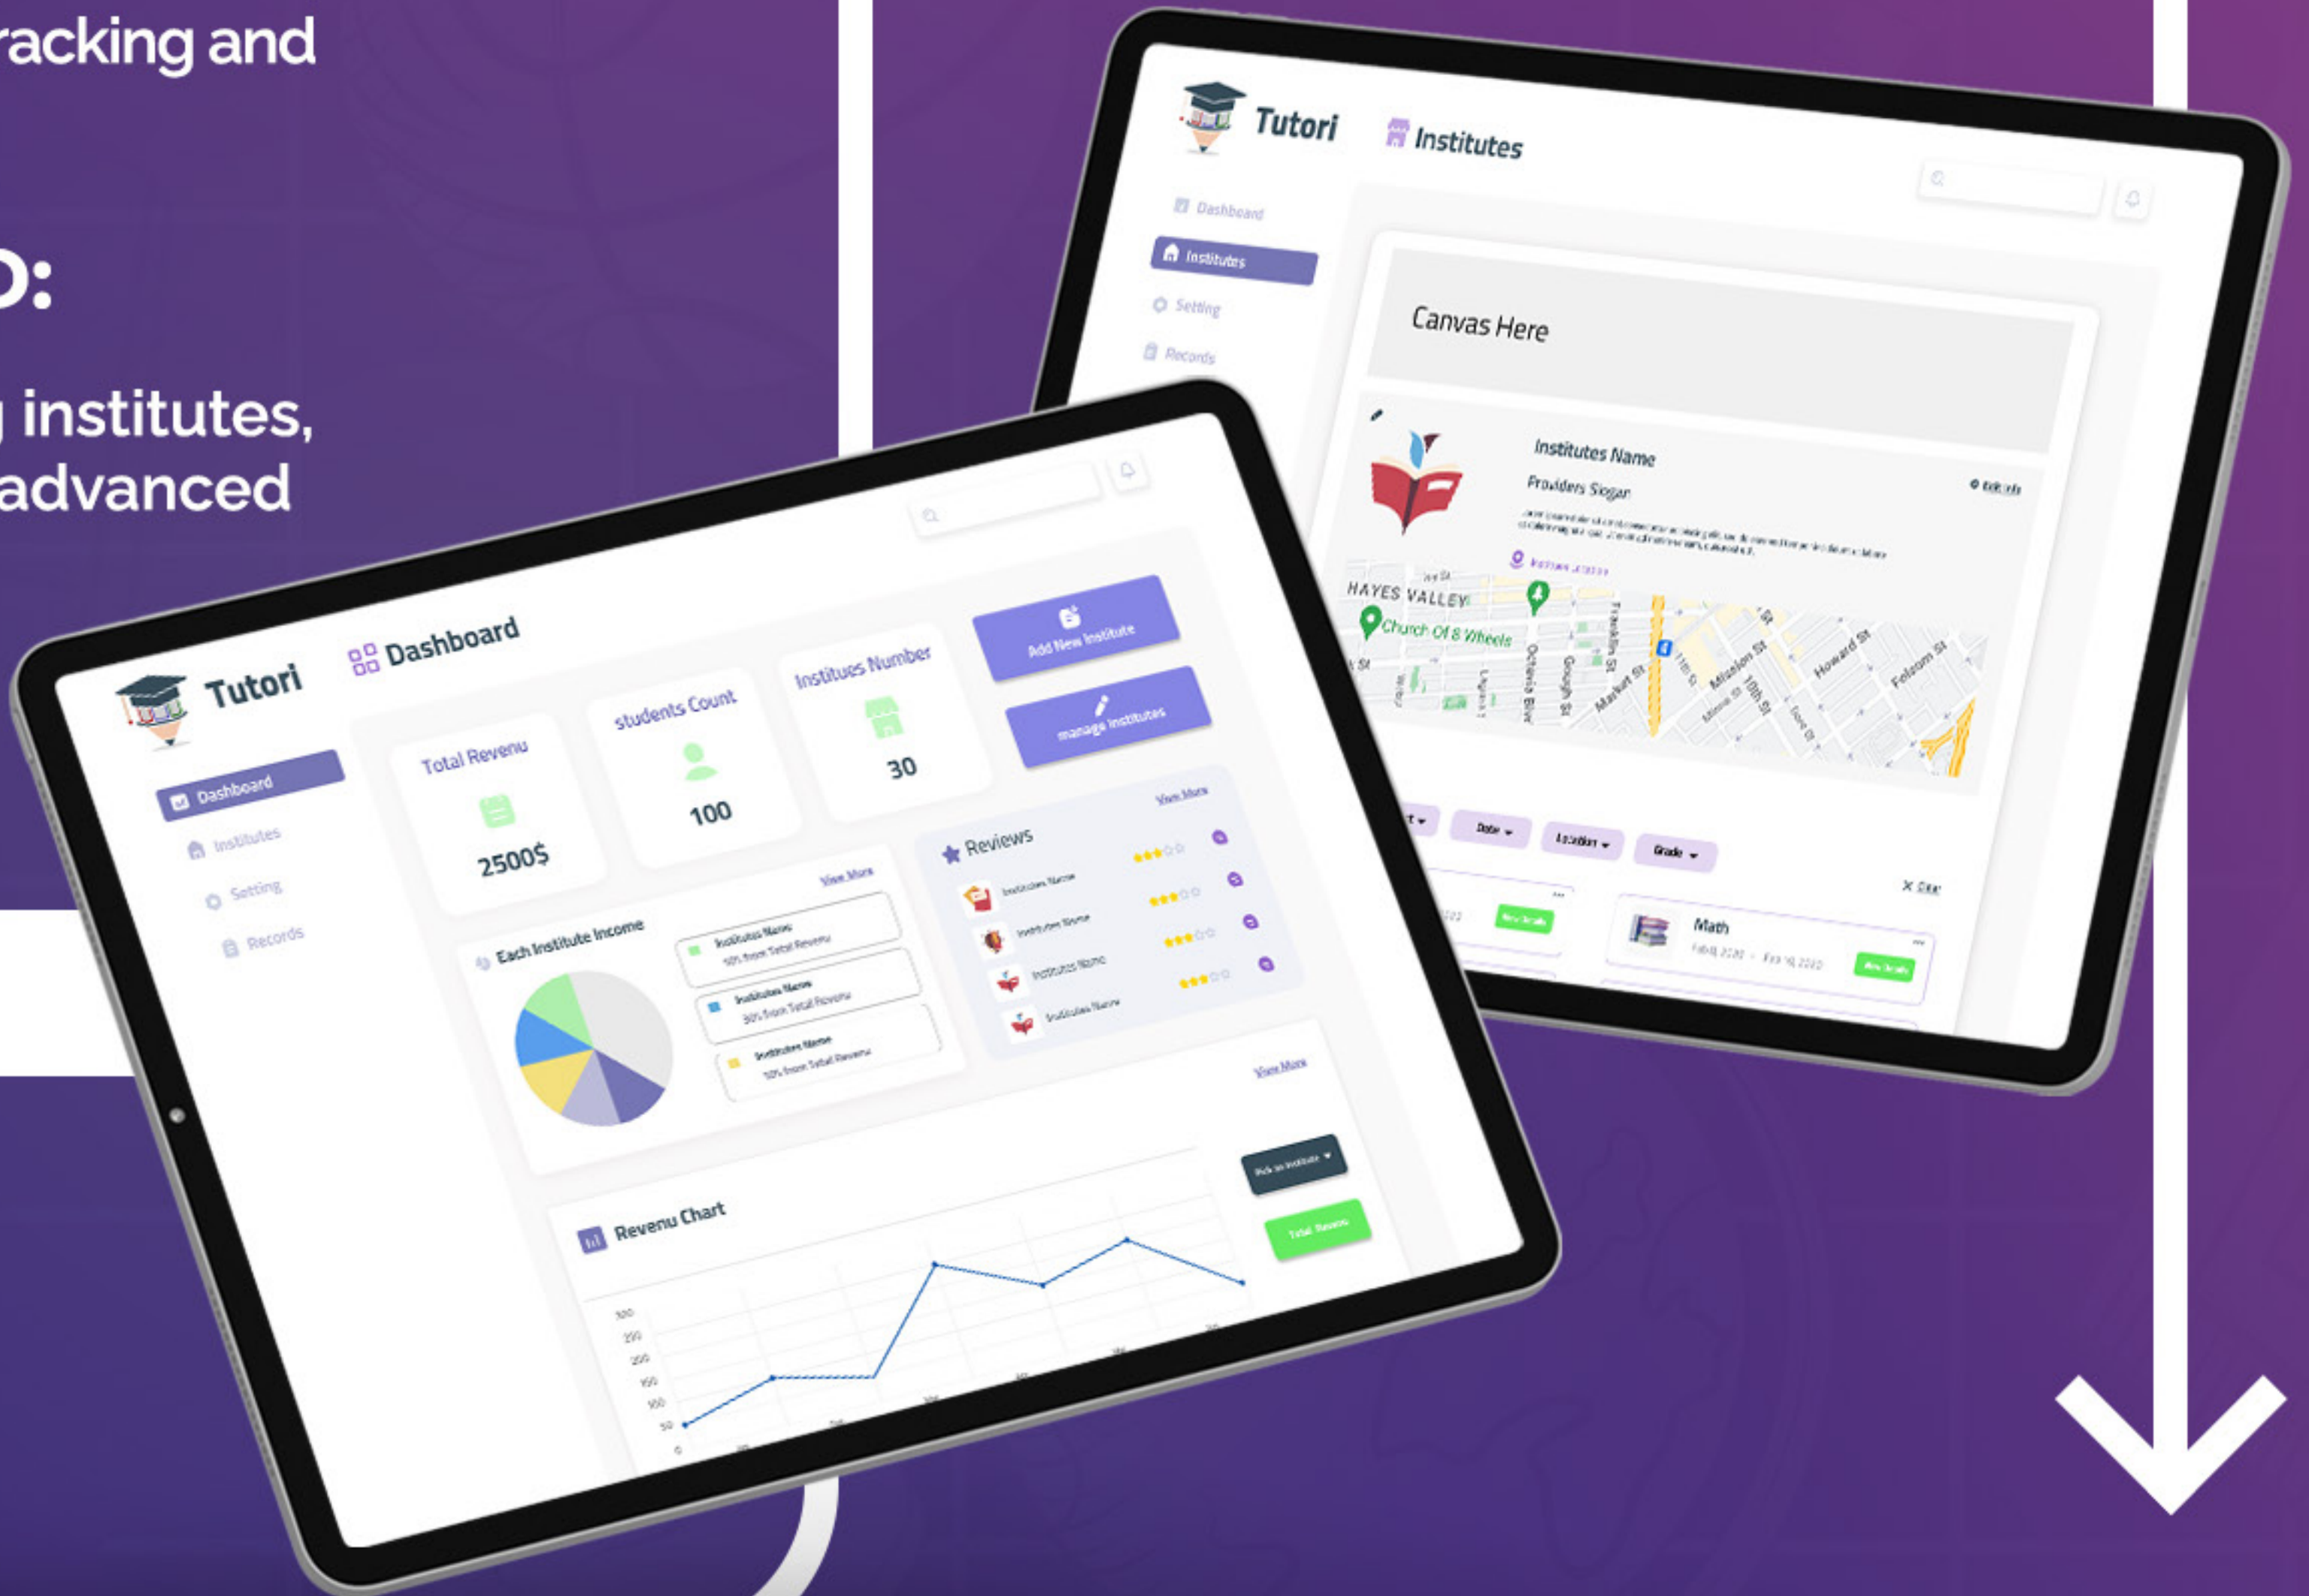

A centralized control panel for managing institutes, monitoring performance, and accessing advanced analytics to support decision-making.

SKILLS AND TOOLS:

INTEGRATIONS:

MyFatoorah payment gateway, Google Maps, social media APIs

DIGITAL MARKETING AND SOCIAL MEDIA:

Setting up and managing social accounts, building content and growth plans, launching go-to-market campaigns, and producing an explainer animation that clarifies the concept and how the platform works to simplify the experience for users.

WEBSITE:

A branded, informative web presence that showcases the platform's services and acts as a gateway connecting students and institutes to the apps.

RESULTS:

30,000+
students in 6 months

10,000+
Instagram followers

Multiple institutes onboarded

Scalable, growth-ready platform

Social media platforms that enhance target audience reach and increase sales

The project was fully executed by the Blue Tech team from ideation to launch, with ongoing social media management post-launch to support growth and adoption.

وتراحمه التعليمية لمساعدتك على اختيار المعهد المناسب بطريقة واضحة وصحيحة

- لن تحتاج إجراءات معقدة عند تسجيل أكثر من طالب أو أكثر من مادة حيث يسمح لك تطبيق Tutori بتسجيل عدة طلاب وتحديد المواد التي ترغب بتسجيلهم بها بالإضافة لعدد الجلسات وتاريخ البدء بها.

بسيط وسهل الاستخدام حيث بإمكانك البحث والتسجيل من أي جهاز محمول وفي أي مكان كنت

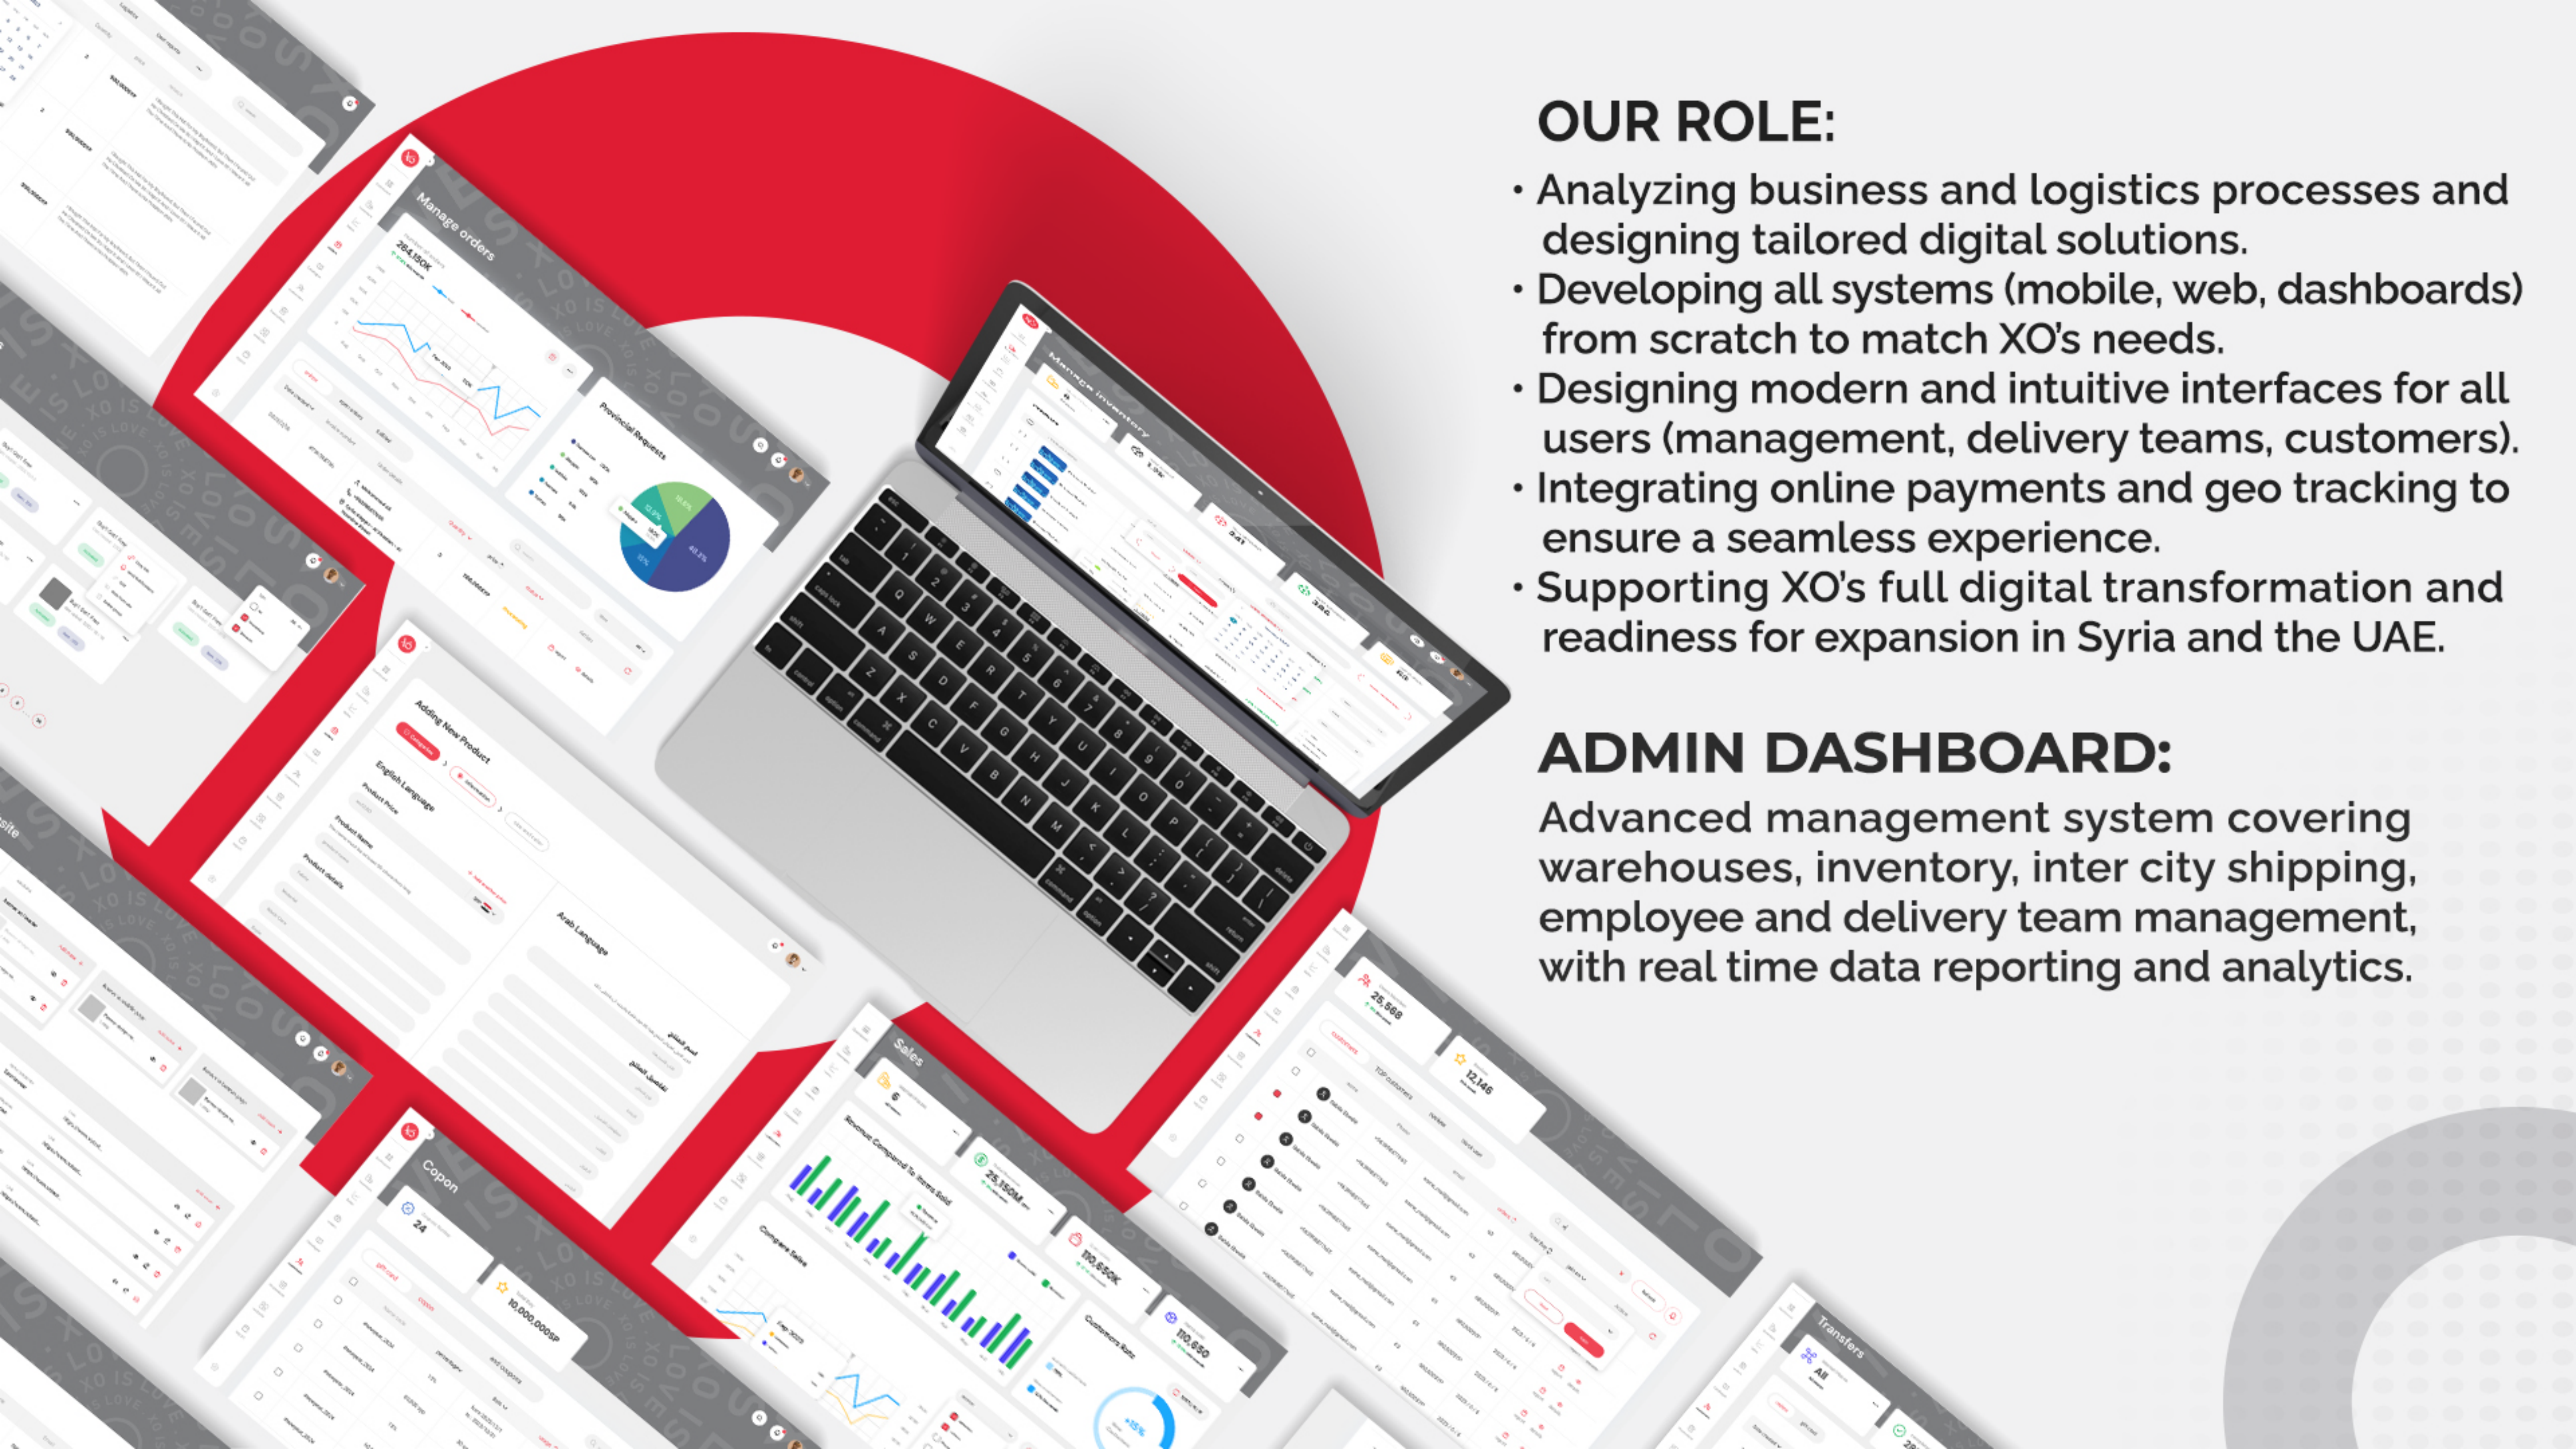

Sector: E Commerce – Logistics Management
Client: XO – Fashion Brand in Syria

PROJECT STORY & CHALLENGES:

Before partnering with Blue Tech, XO relied on manual processes to manage inventory and orders, causing delays and high administrative load.

We built a smart, automated system to streamline sales, inventory, shipping, and workforce operations. The solution included both a mobile app and web application for customers, along with dedicated delivery apps and advanced dashboards for inventory logistics, and payments.

OUR ROLE:

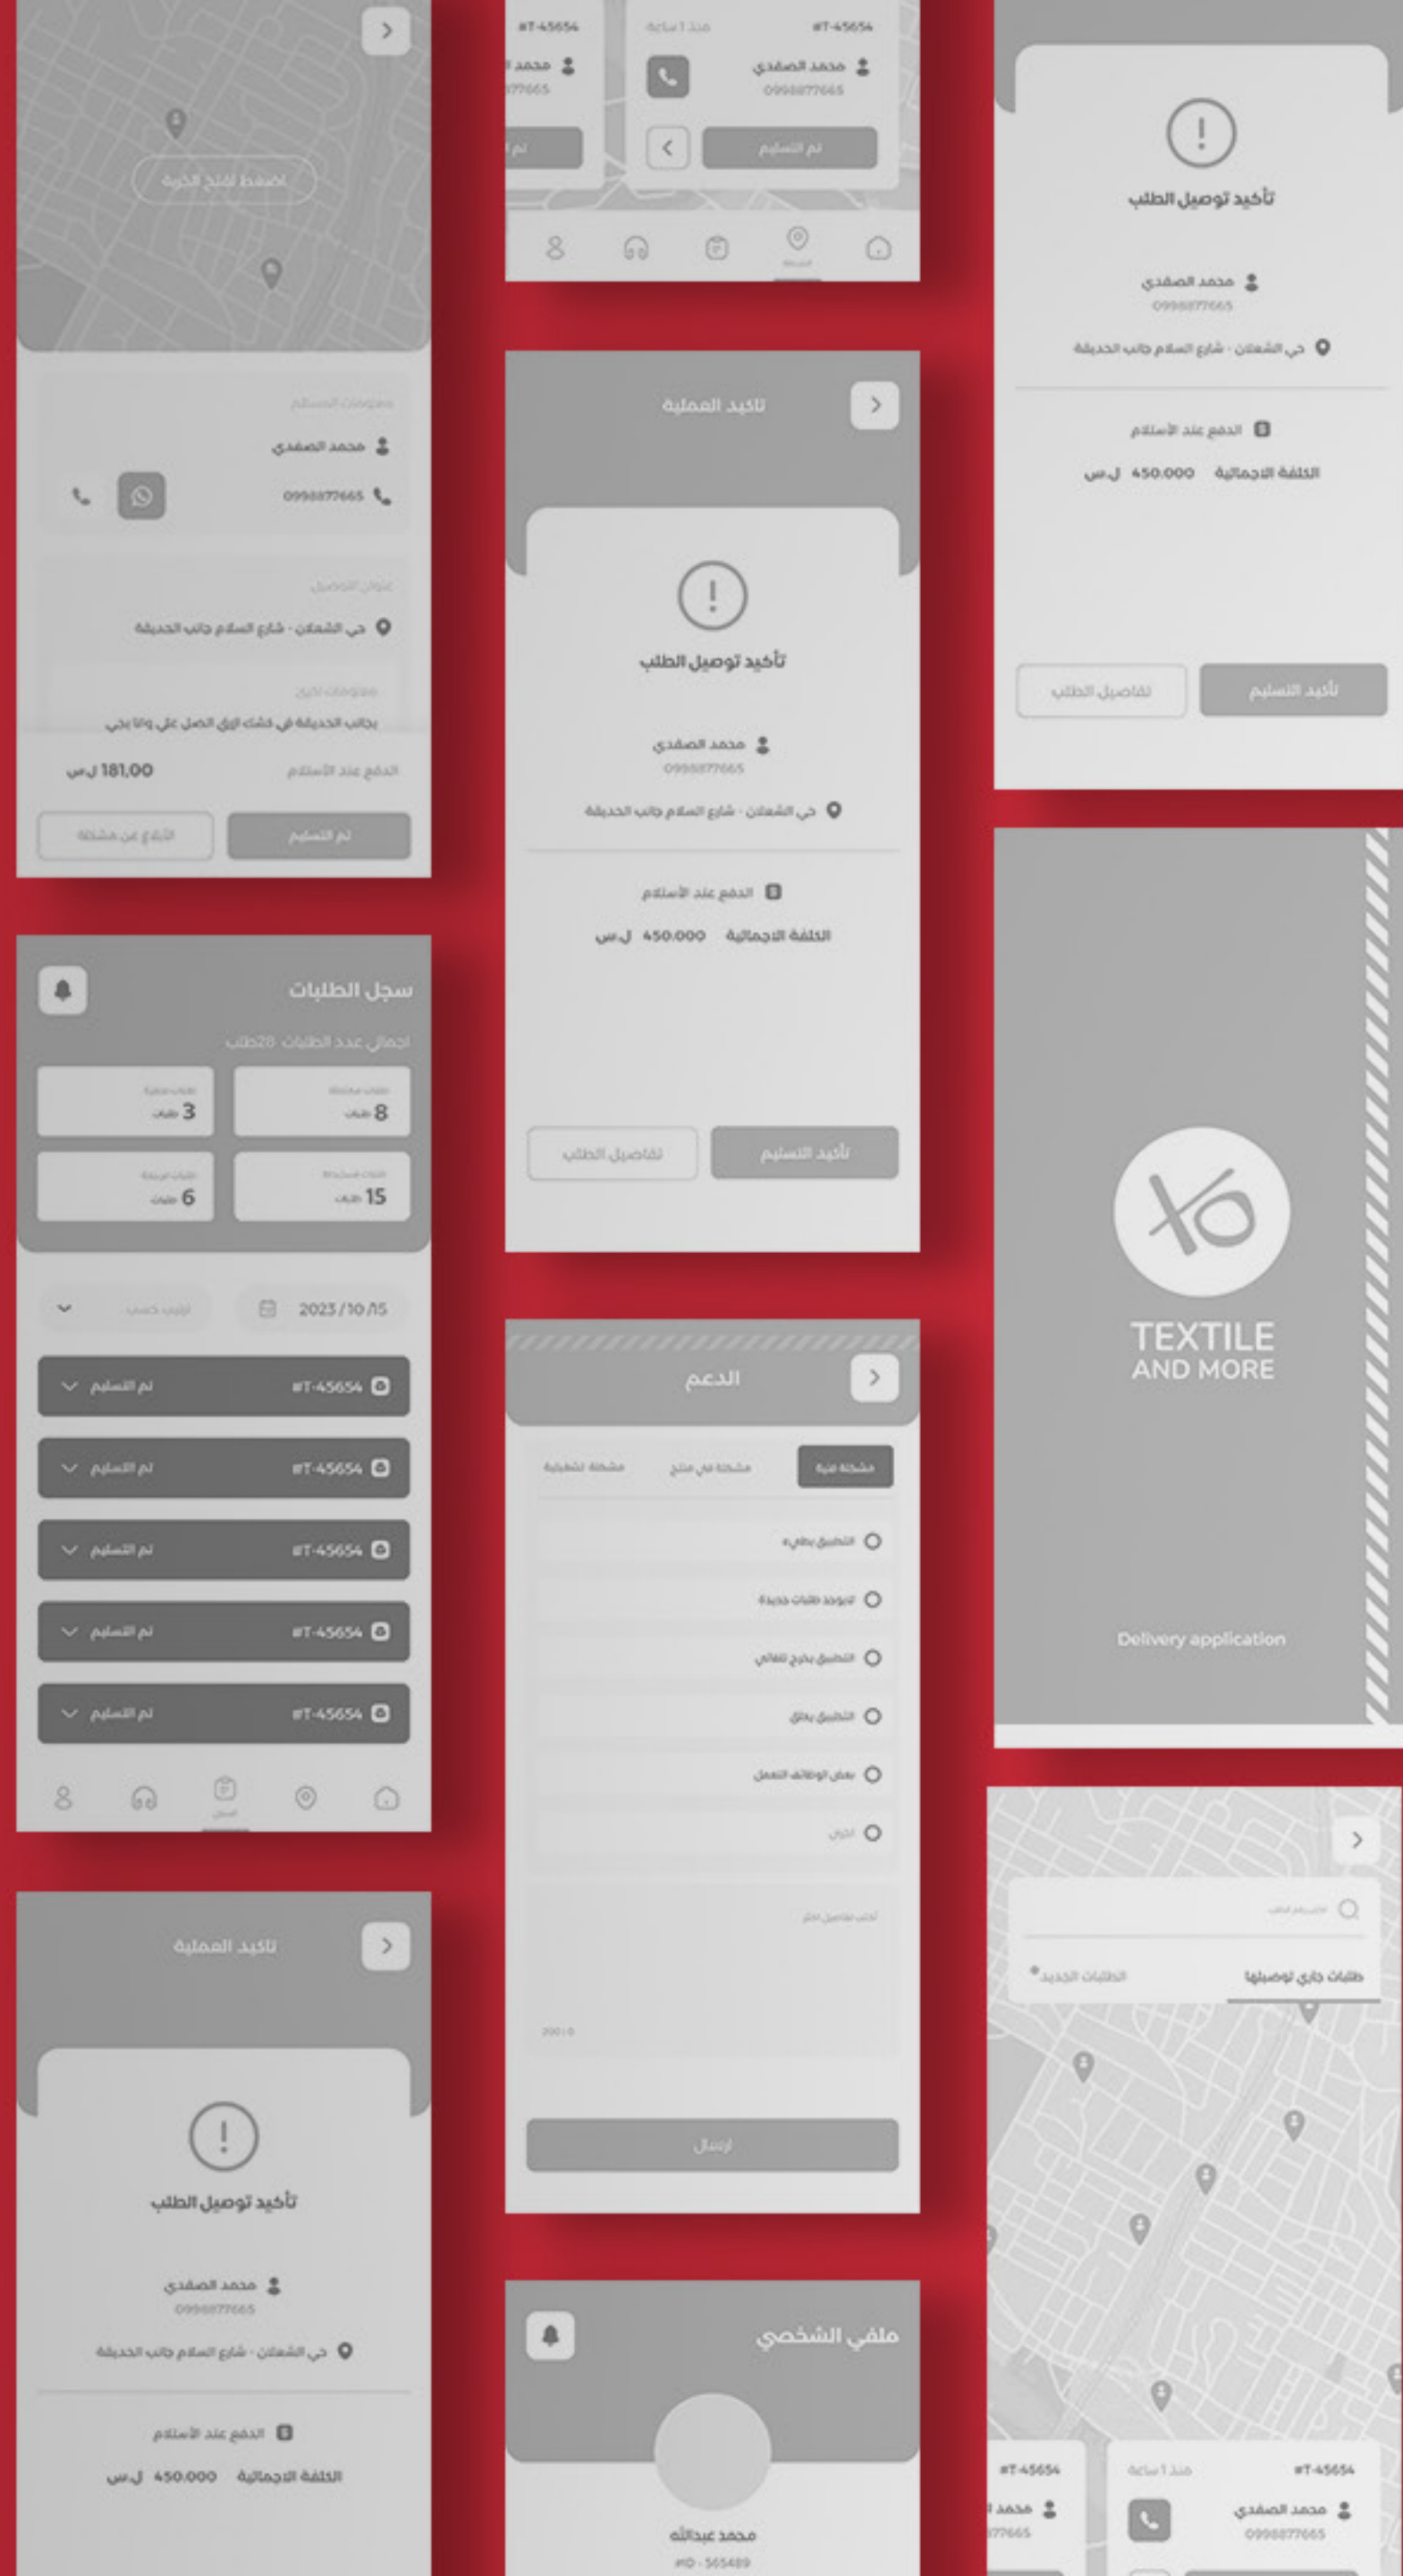

- Analyzing business and logistics processes and designing tailored digital solutions.
- Developing all systems (mobile, web, dashboards) from scratch to match XO's needs.
- Designing modern and intuitive interfaces for all users (management, delivery teams, customers).
- Integrating online payments and geo tracking to ensure a seamless experience.
- Supporting XO's full digital transformation and readiness for expansion in Syria and the UAE.

ADMIN DASHBOARD:

Advanced management system covering warehouses, inventory, inter city shipping, employee and delivery team management, with real time data reporting and analytics.

MOBILE APPLICATIONS:

- CUSTOMER APP: Browse products, place orders, secure payment, and real time order tracking.
- DELIVERY APP: Assigned orders per driver by location, real time status updates.

WEB APPLICATION:

A browser based version offering the same features as the mobile app for customers.

RESULTS:

- Significant reduction in logistical errors.
- Faster order processing and delivery.
- Improved operational efficiency from point of sale to final delivery.
- A scalable platform ready for regional expansion beyond Syria.

YING AN

AI POWERED EDUCATIONAL PLATFORM

SECTOR: Education – Artificial Intelligence

– Educational Publishing

CLIENT: Private Project – China

PROJECT OVERVIEW & CHALLENGE:

Due to the lack of effective contextual translation tools, Chinese educational institutions faced major challenges producing validated bilingual (English/Chinese) teaching materials quickly and accurately. There was also a need for a unified platform to manage files, resources, and to support students' self study. Blue Tech deployed AI solutions and fine tuned custom models to meet these needs, delivering an integrated dual system including software and mobile apps that provide fast, education grade translations powered by AI.

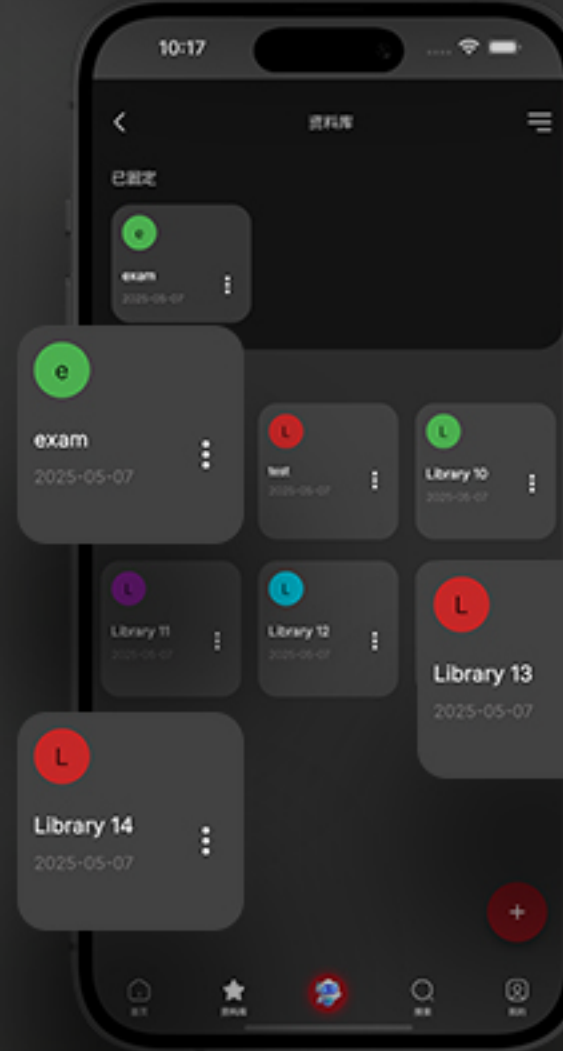

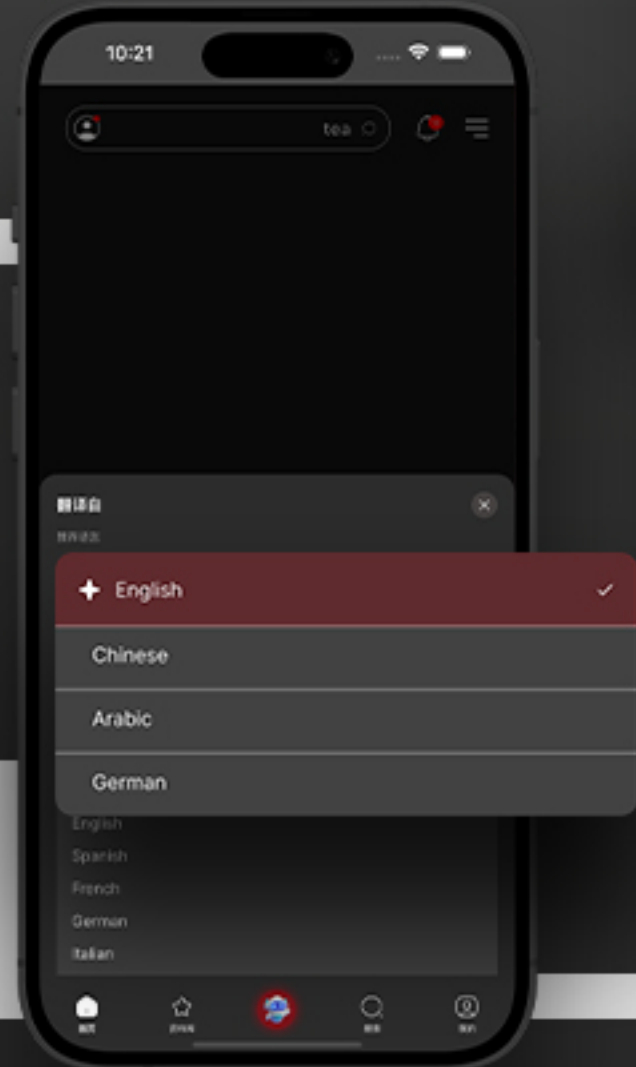

• MOBILE APPLICATION:

A mobile app powered by a custom LLM and designed UI/UX to facilitate search and use, offering:

- Accurate, real time educational translation (English & Chinese).
- Upload of assignments with automatic conversion to print ready PowerPoint slides.
- An intelligent assistant for language learning support and student inquiries.
- Automatic generation of bilingual, printable teaching materials.
- Advanced in app file and resource management.

SKILLS & TOOLS USED:

- **CENTRAL ADMIN DASHBOARD:**

An advanced AI enabled system for file management and organization of educational projects and resources; it reduces operational errors, speeds up response times via automated task distribution, and prepares the platform for scaling.

Automated **80%** RESULTS: of the bilingual textbook preparation process.

- Accelerated production of printable educational content.
- Launched an initial app version that significantly improved students' self study experience.

NOTE: The project was fully executed by BLUE TECH, including model training and tuning to ensure accurate outputs suitable for educational use.

ADVERTISING PLATFORM FOR TOURIST SERVICES IN THE UAE SECTOR: TOURISM & DIGITAL ADVERTISING

SIXGUIDES YOUR JOURNEY

PROJECT OVERVIEW &

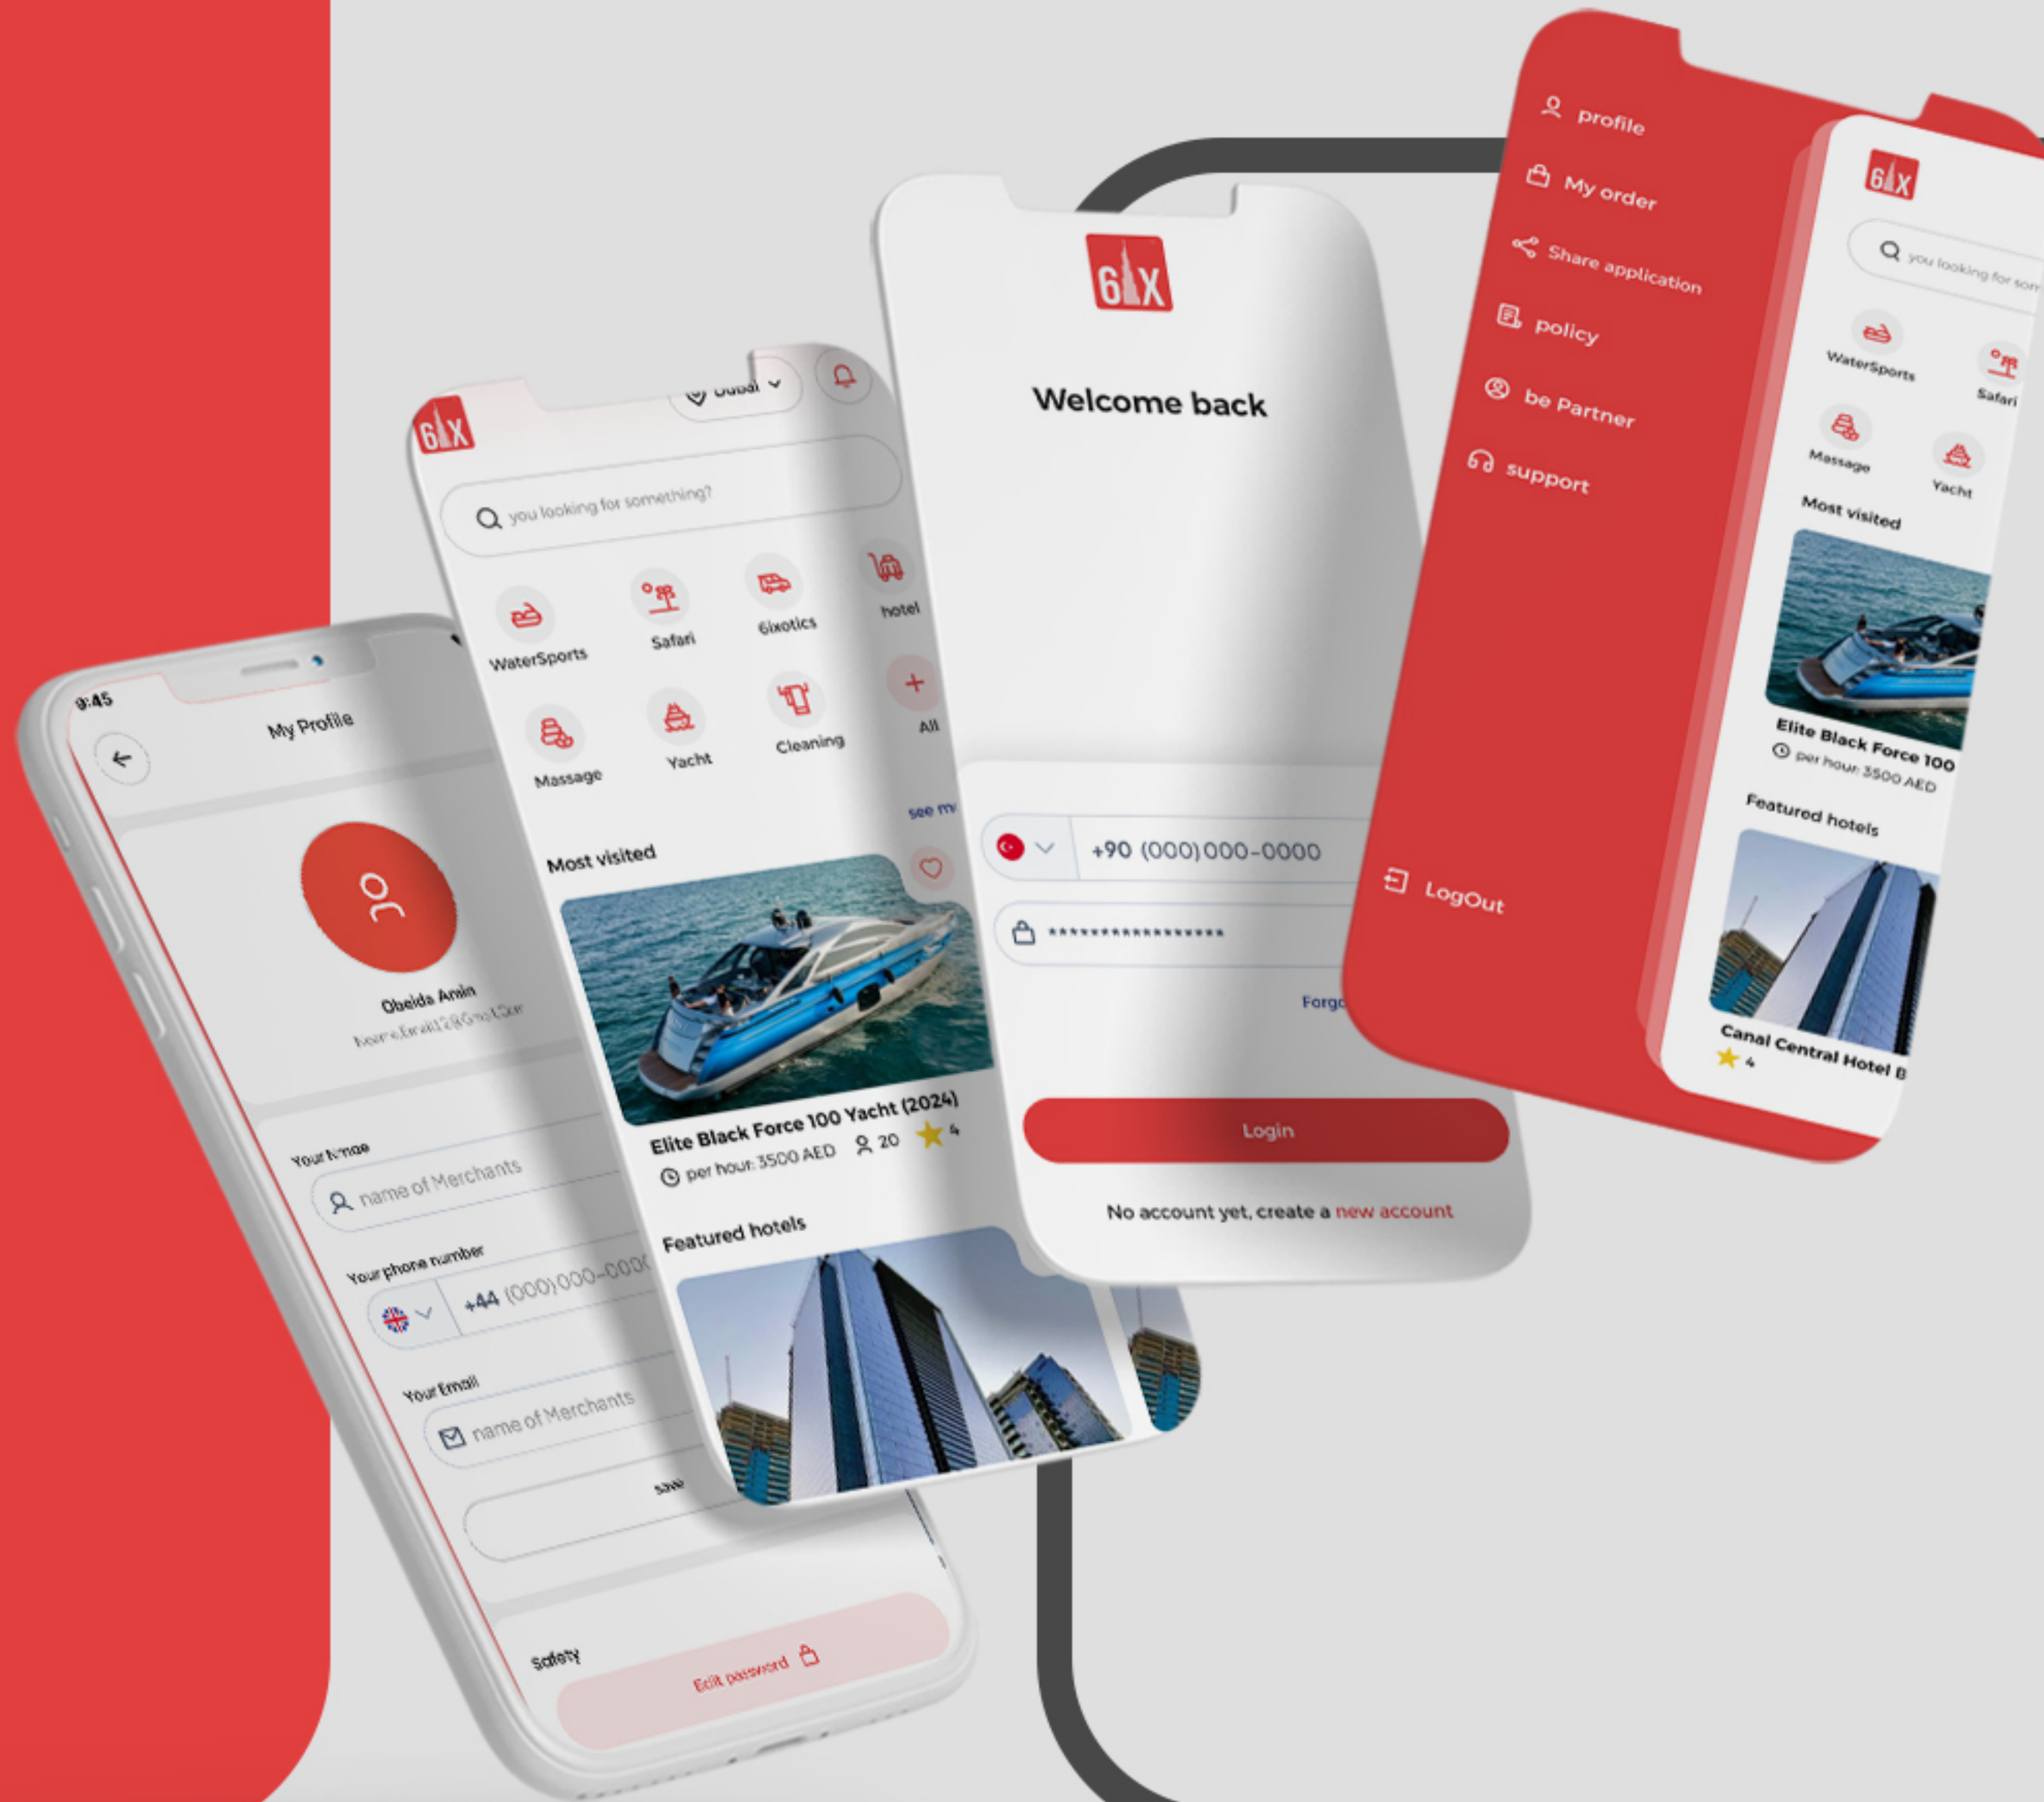

Merchants in Dubai's luxury market struggled to promote their services directly to customers.

SIXGUIDES connects merchants and tourists through an interactive platform featuring yacht rentals, luxury cars, and VIP services, supported by smart promotion tools like QR codes.

The Solution We Delivered:

Blue Tech designed and built the full system — mobile app, dashboards, and web app — along with brand identity, digital marketing, and SEO management.

CHALLENGE:

- **MOBILE APP (USER):**

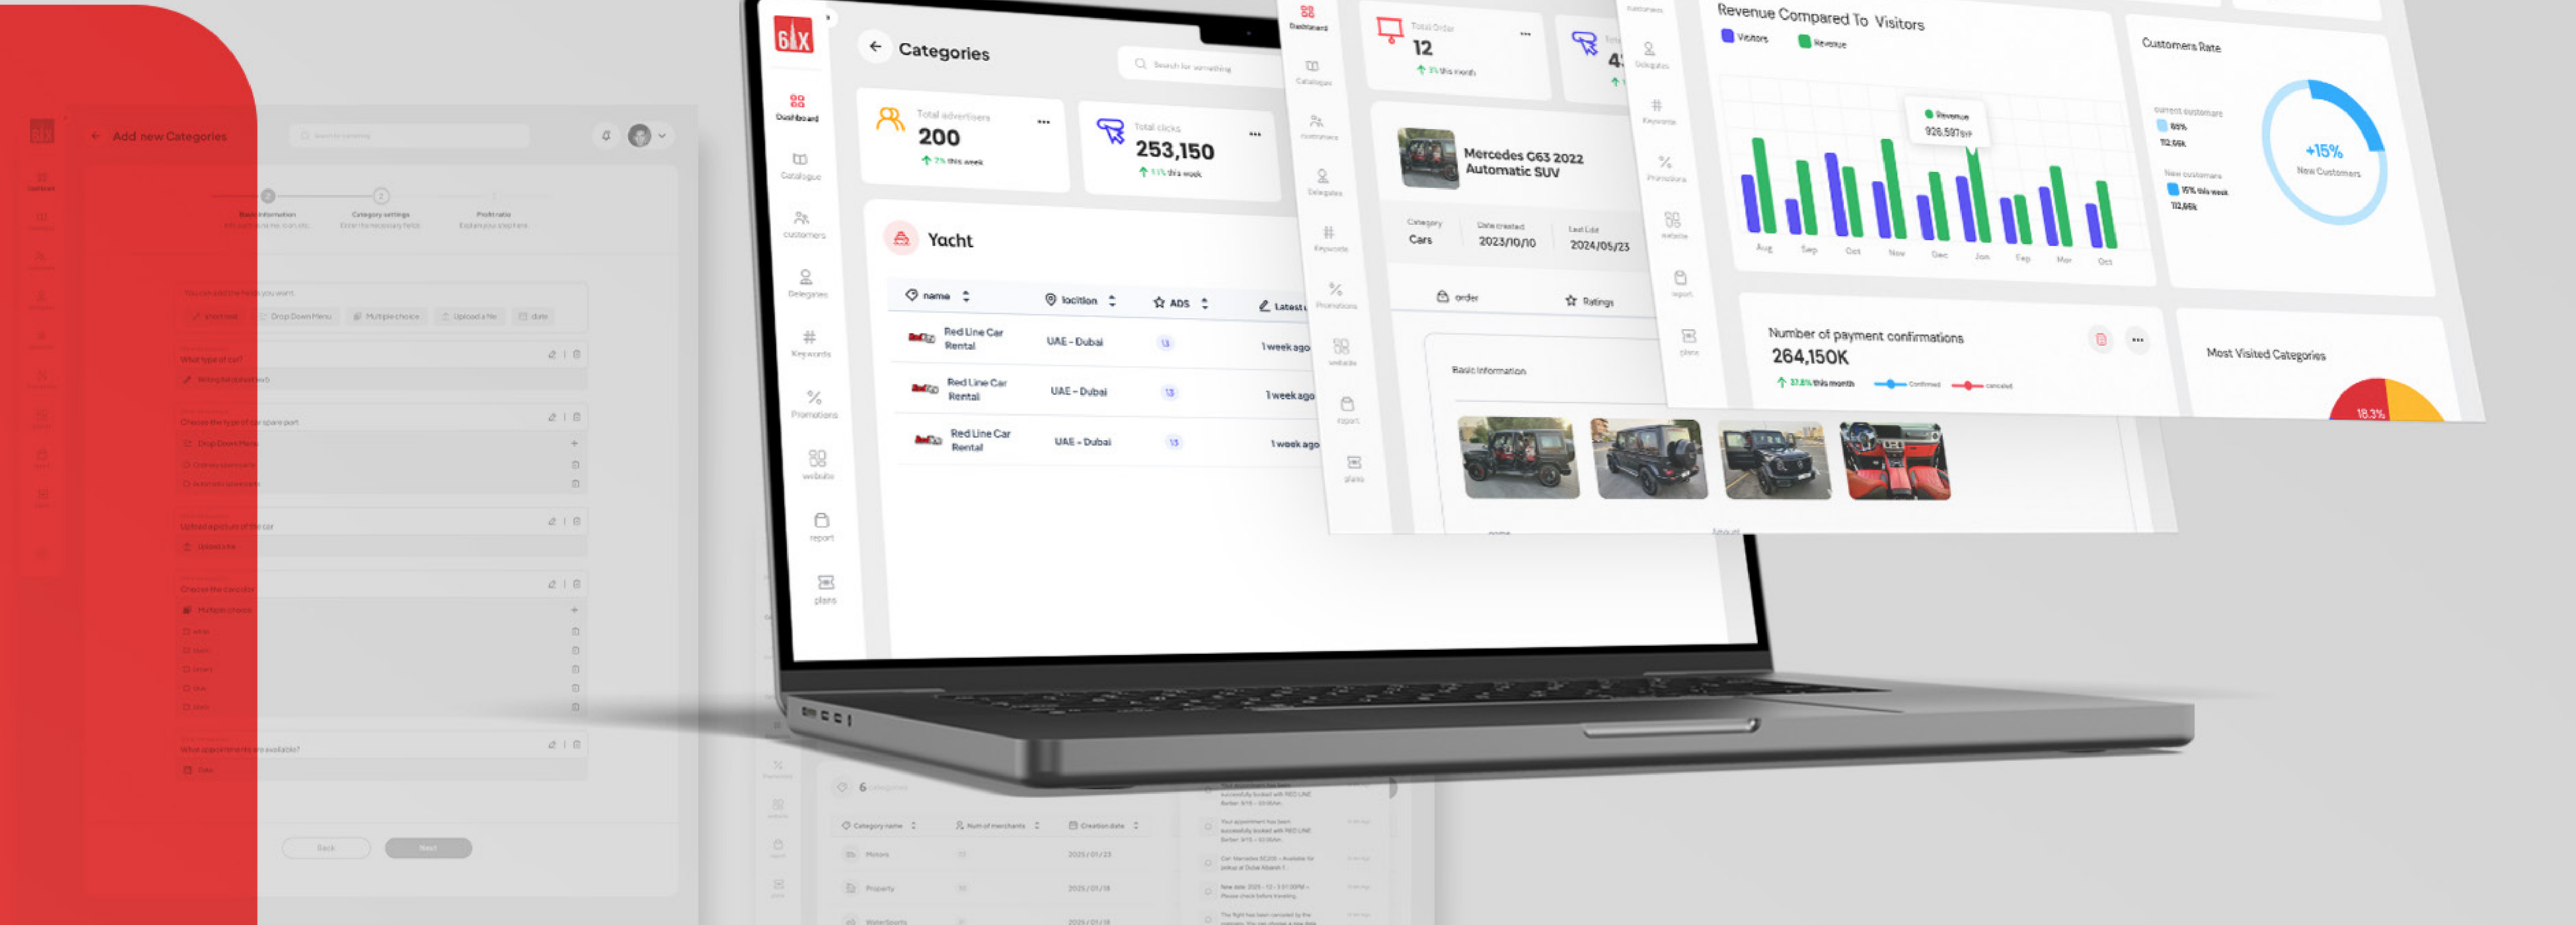

Enables users to explore VIP offers and book services instantly by scanning a QR code — with secure payment methods and instant access to services without hassle — while providing an operations panel that allows merchants to manage their ads and prices and enables reps to accept tasks and update status directly on the map.

- **INTEGRATED DIGITAL MARKETING:**

- Brand identity design: logo, color guide, and a visual style that reflects luxury.
- Digital marketing campaigns: social media account management and paid advertising execution.
- Search Engine Optimization (SEO): to strengthen Google visibility and increase organic traffic.
- Ensuring users can reach services quickly without needing to install an app.

• MERCHANT & REP CONTROL PANEL:

Tools to manage ads, services, and pricing easily, linked to QR codes deployed at strategic locations (hotel apartments, hotels, residential complexes); scanning a code takes the user directly to the platform. In addition, a Super Admin Dashboard monitors and orchestrates all operations, connecting merchants, reps, and users — all supported by UI/UX design that improves usability and performance for merchants, users, and administrators.

• WEBSITE:

Presents services in an organized, easy-to-use layout supported by fast, user friendly interface design, with instant booking capability and high scalability for future geographic and sectoral expansion.

• SKILLS & TOOLS USED:

• RESULTS:

- Delivered a premium and distinguished advertising experience.
- Enabled customers to access services quickly and frictionlessly.
- Built a highly scalable platform ready for geographic and sectoral expansion.

ZEINAH ACADEMY

ACADEMIC PLATFORM

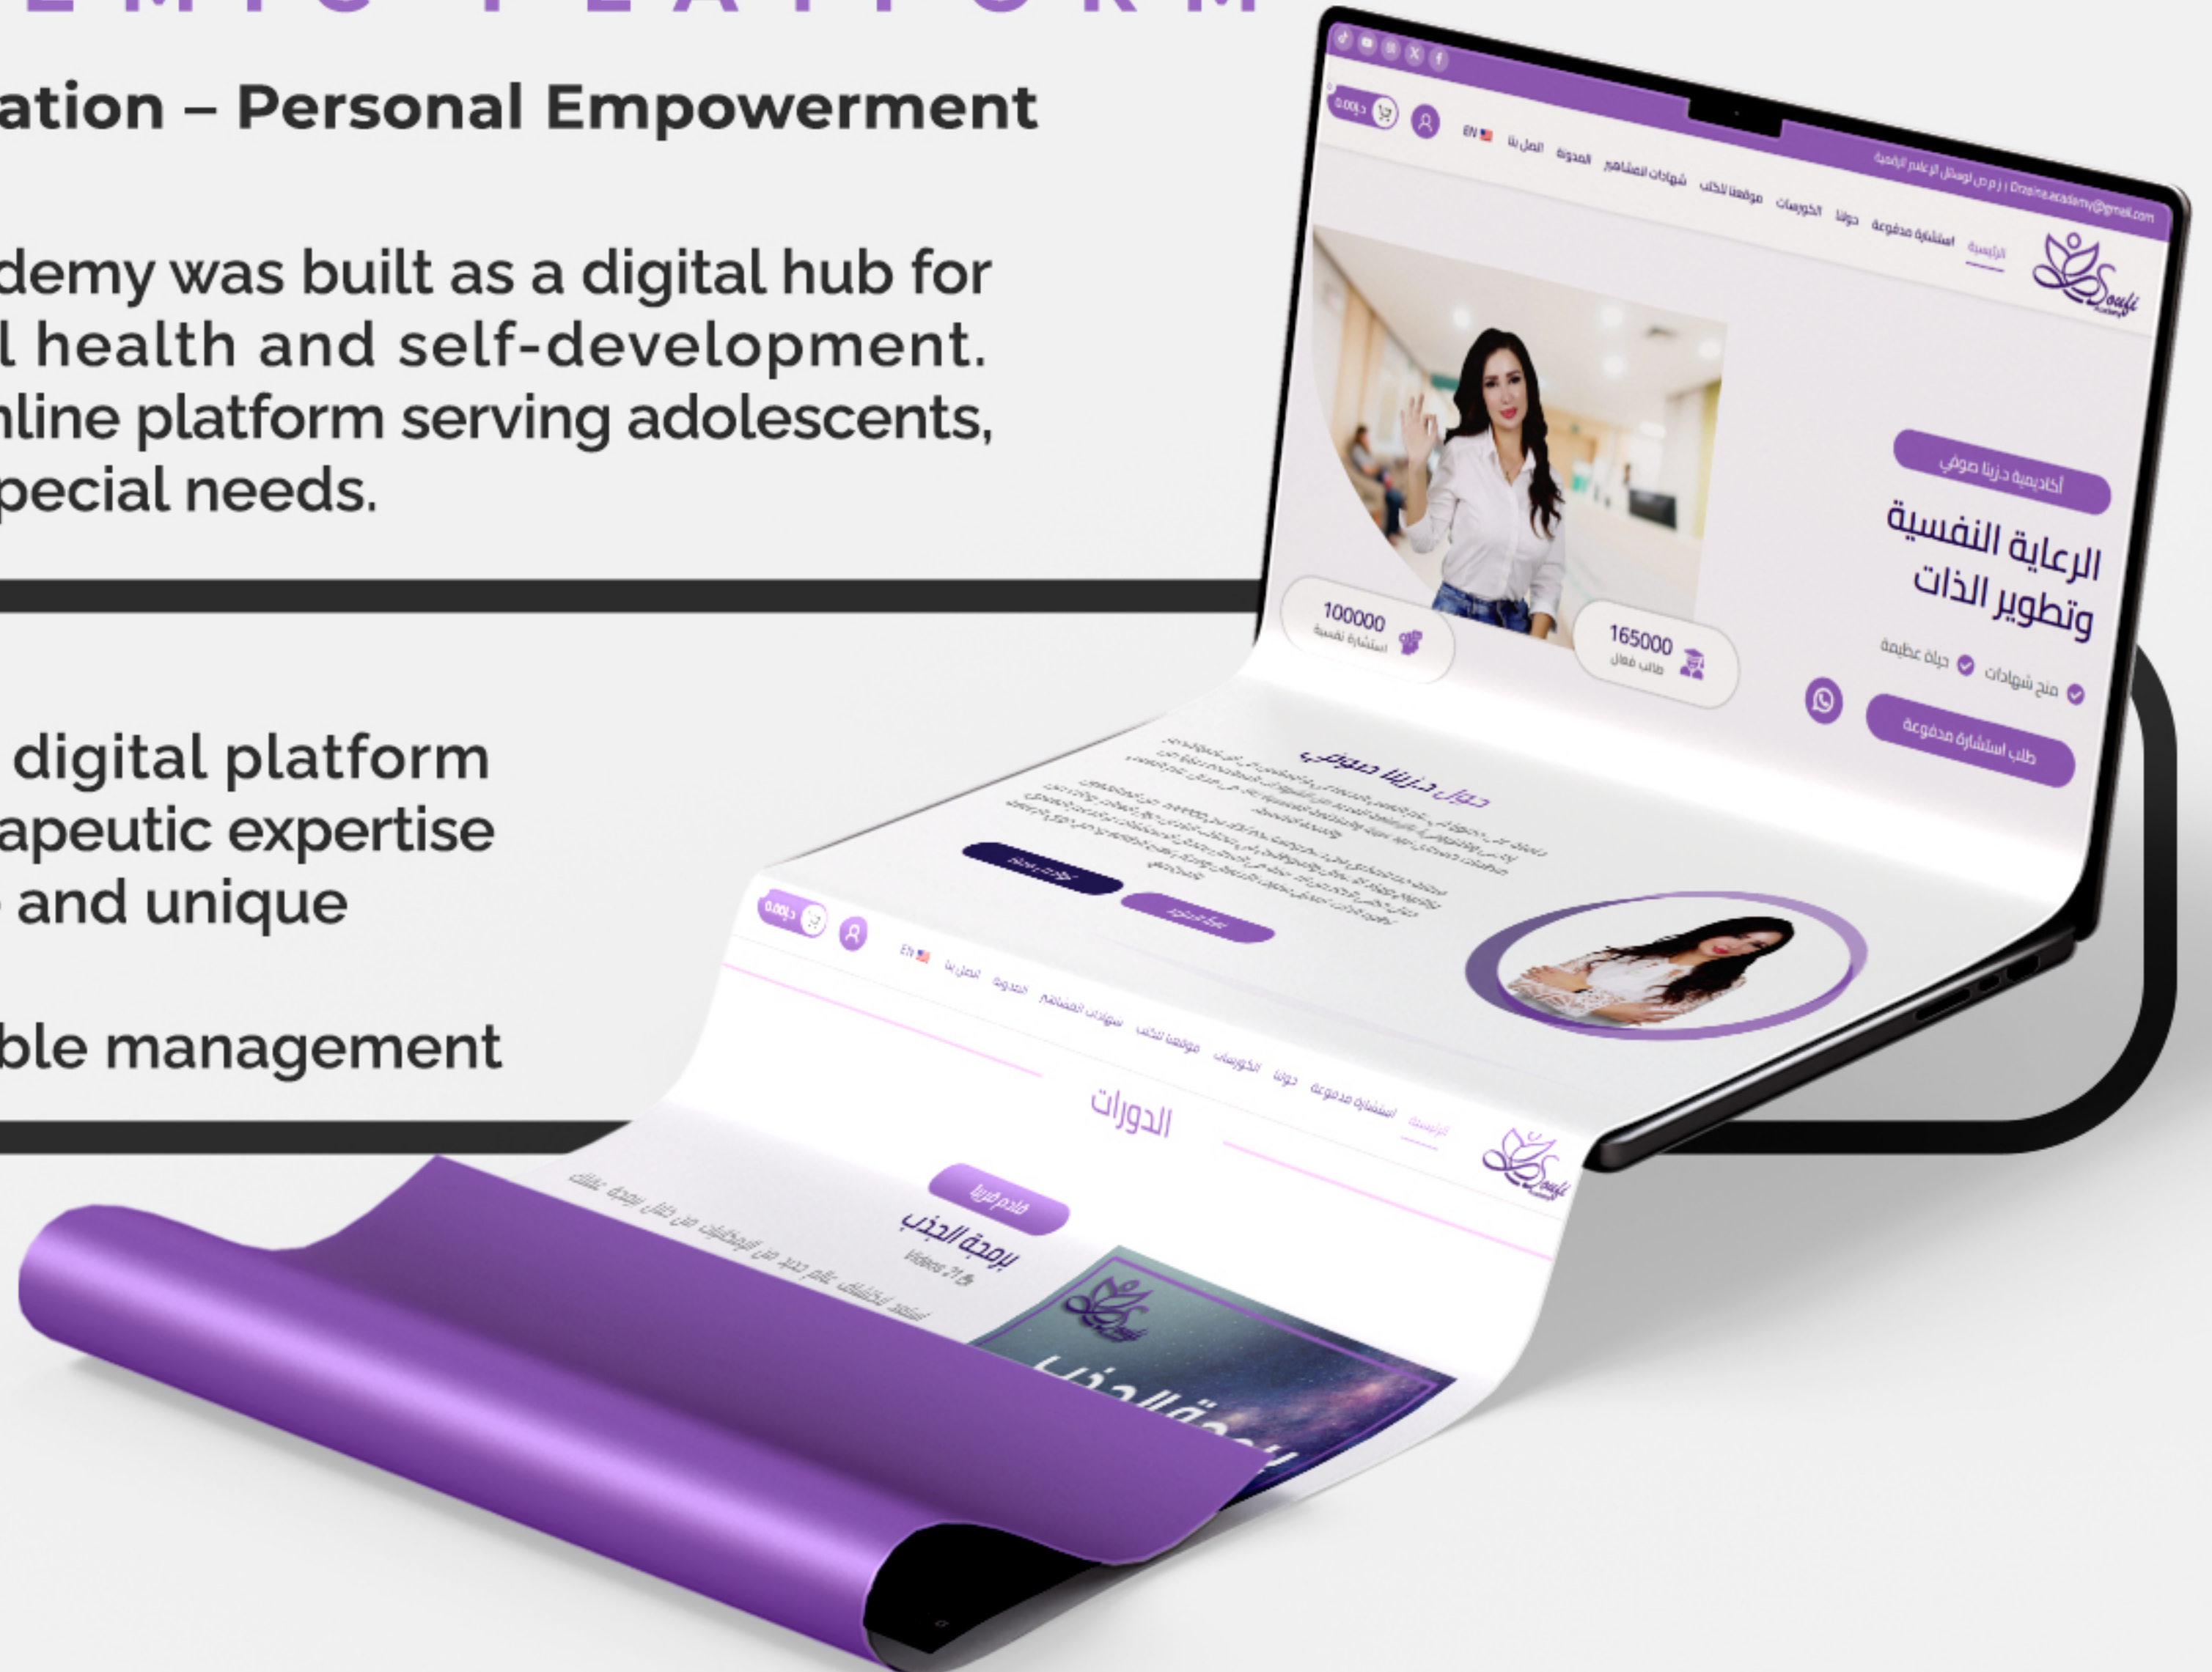

Focus Areas: Mental Health – Education – Personal Empowerment

PROJECT OVERVIEW:

Supervised by Dr. Zeinah Soufi, the academy was built as a digital hub for training and consultations in mental health and self-development. The goal was to create a professional online platform serving adolescents, couples, and parents of children with special needs.

OUR APPROACH :

- Designed and developed a scalable digital platform
- Combined academic content with therapeutic expertise
- Delivered a seamless user experience and unique **VISUAL IDENTITY**
- Trained the internal team for sustainable management

KEY DELIVERABLES :

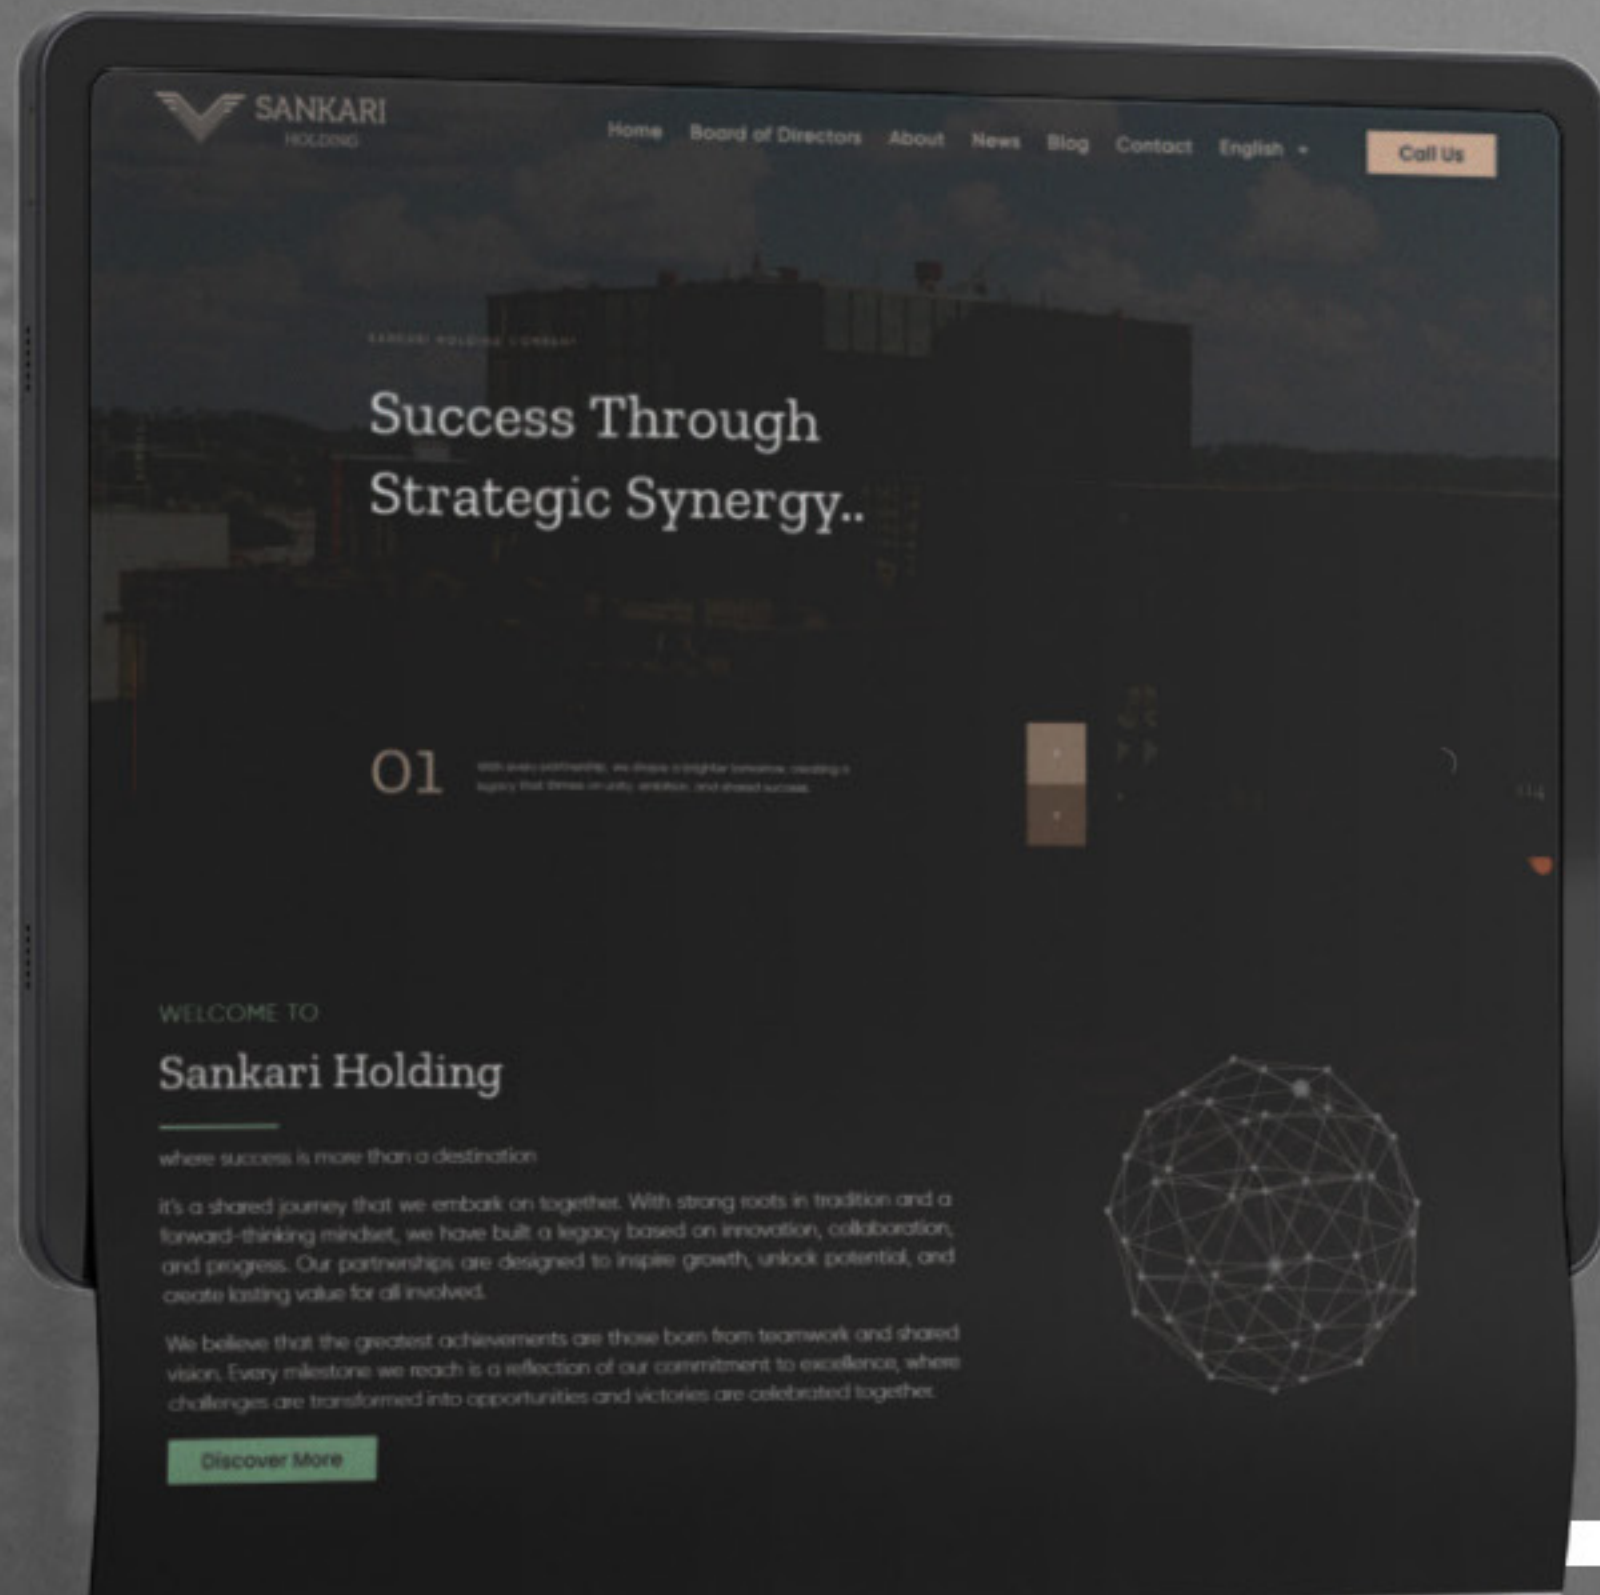

- Platform Development: WordPress-based LMS using LearnPress, with tailored interfaces for students, instructors, and administrators.
- Visual Identity: Branding that communicates psychological comfort and professionalism, including a custom logo and color palette.
- Training & Support: Hands-on training for internal teams, equipping them with the tools to manage and grow the platform.

RESULTS: & IMPACT

- A platform that has supported **over 1,000** users across multiple countries.
- A robust, future-ready solution designed for scalability and expansion.
- Delivery of trusted psychological and educational content that created a positive, tangible impact on people's lives

SANKARI HOLDING

Sectors:
Holding Companies | Diversified Businesses | Corporate Identity

PROJECT OVERVIEW :

Sankari Holding is a diversified group of companies operating across multiple sectors in the UAE. The group partnered with Blue Tech to design and develop a multilingual corporate website that reflects its identity and strengthens its international presence.

OUR APPROACH :

We began by analyzing the group's structure and needs, then created a clear and user-friendly website architecture. The site was developed on WordPress with a fully integrated multilingual system (Arabic, English, French), ensuring seamless navigation for a diverse global audience.

DEVELOPMENT &

- Built a professional, responsive website with a modern structure that reflects the group's market position.
- Designed multilingual interfaces (UI/UX) tailored for diverse audiences.
- Organized company sectors within an easy-to-navigate template, with dedicated pages for corporate identity and inquiries.
- Applied a cohesive visual identity and color palette, aligned with the group's branding.

SEO & ACCESSIBILITY :

- Implemented multilingual SEO best practices to boost visibility across global and regional markets.
- Enhanced the site's readiness to support international tenders and partnerships.

TECHNOLOGIES & TOOLS :

Multilingual SEO-Responsive Design

RESULTS

- Delivered an **official trilingual website** that reflects the credibility and stature of Sankari Holding.
- Enhanced the group's ability to engage with clients and partners worldwide.
- Supported the group's goals for **international expansion and growth**.

AMAZ EASYFIN

SOLUTIONS FZC

Client: EasyFin – A trusted financial and accounting consultancy firm in the UAE.

CHALLENGE:

To establish a professional online presence that reflects credibility and ensures strong search engine visibility for their accounting, financial consulting, and tax services.

SOLUTION:

- Developed a responsive WordPress website with expertly crafted English content.
- Designed a comprehensive visual identity, including logo, color palette, and typography.
- Implemented advanced SEO strategies, optimizing site structure and meta tags for improved search rankings.

RESULTS:

- Launched a highly professional and trustworthy digital platform.
- Significantly enhanced search engine visibility and online presence.
- Established a robust corporate interface, effectively attracting new clients and supporting business growth.

TOOLS:

**Integrated Digital Identity for a Financial Solutions Firm
Client: Base Up – A financial, tax, and consulting services
provider for SMEs and entrepreneurs in the UAE.**

CHALLENGE:

To build a professional digital identity that reflects the company's financial expertise in a clear, trustworthy way, while enhancing online visibility through SEO.

SOLUTION:

- Designed a full visual identity derived from the existing logo (colors, typography, brand applications).
- Created and designed a professional Company Profile showcasing services and target sectors.
- Developed a WordPress website with an SEO-optimized structure and clear English content.
- Organized service pages based on the user journey for a seamless UX.

RESULTS:

- Delivered a professional visual identity reflecting credibility and brand values.
- Launched an SEO-ready website with enhanced online presence.
- Provided a comprehensive Company Profile for official communications and business proposals.

TOOLS :

LUXURY GIFTS & CHOCOLATE

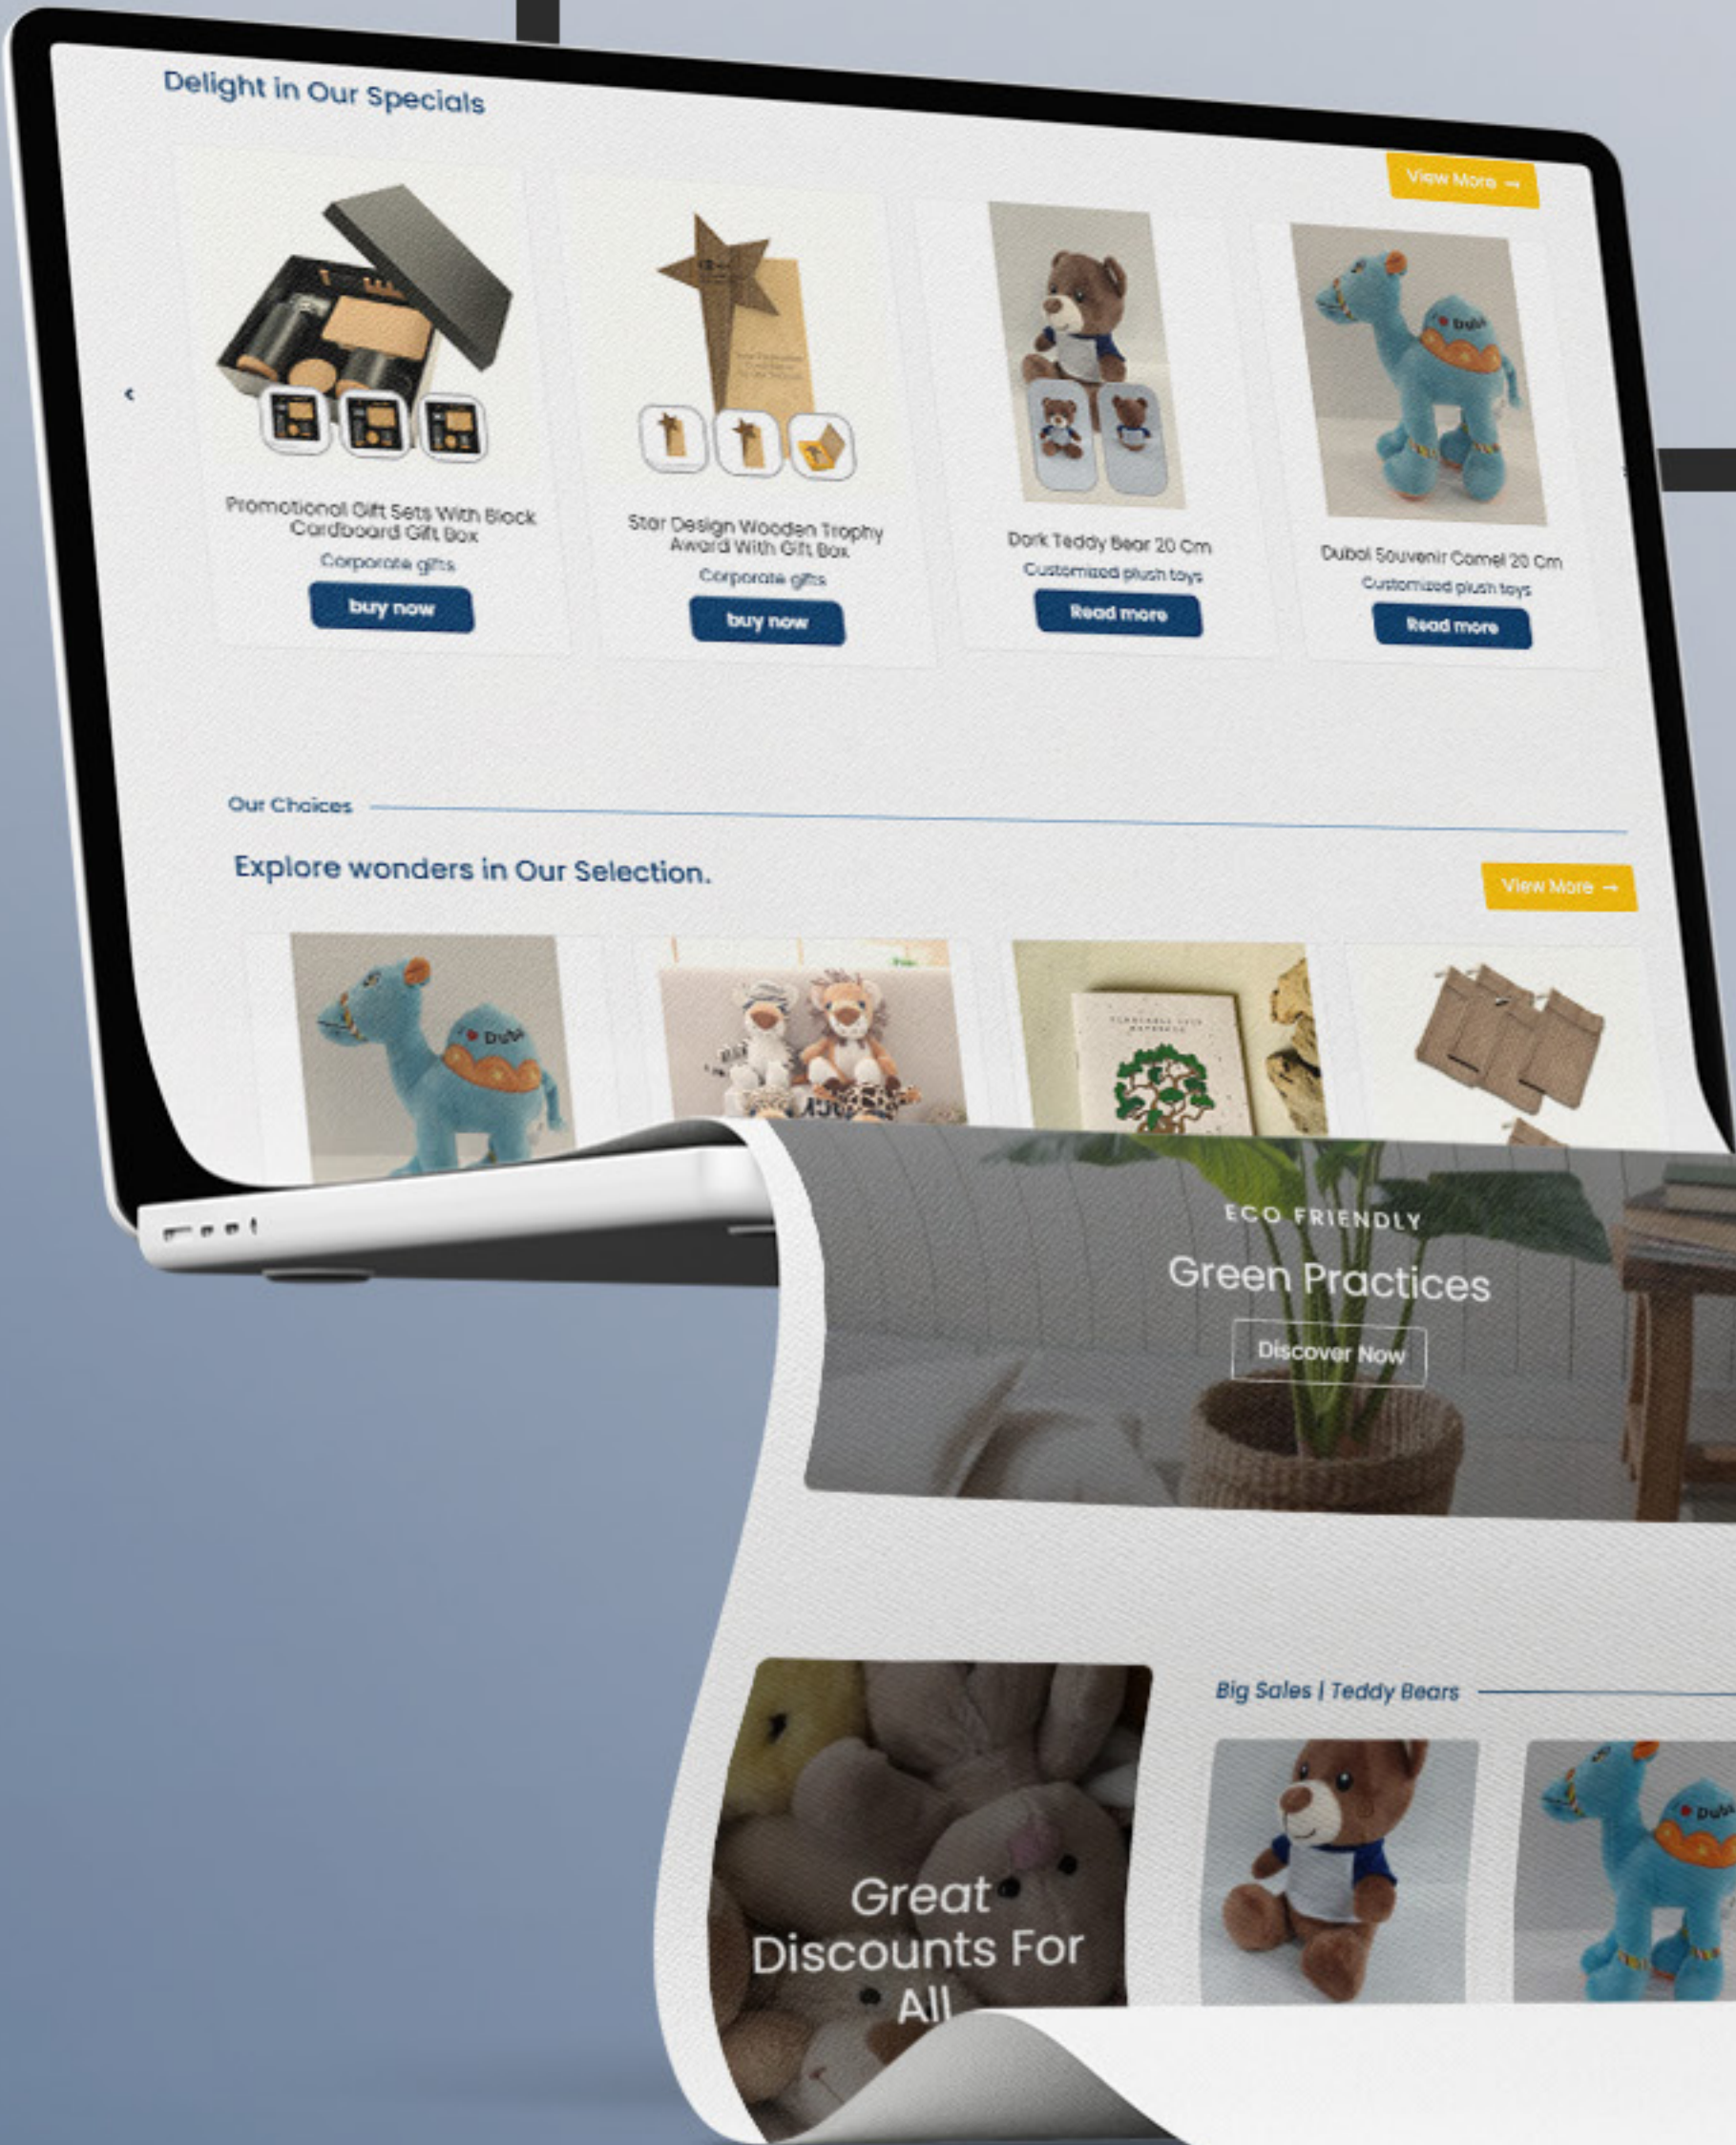

E COMMERCE STORE

GIFT HUB

PROJECT OVERVIEW :

Gift Hub is a UAE-based e-commerce store specializing in luxury gifts and chocolates, targeting an audience seeking a refined and personalized shopping experience. The brand was looking for a partner to create a feminine, modern visual identity and design an online store that reflects the spirit of gifting and personalization, while ensuring a strong technical foundation for search engine visibility.

SOLUTIONS:

- Created a feminine and contemporary brand identity that embodies the essence of gifting.
- Developed a fully functional e commerce website using WordPress and WooCommerce with attractive, user-friendly interfaces.
- Implemented a comprehensive SEO structure for pages and products, with customized filtering aligned with the nature of gifts and personalized options.

RESULTS:

- Launched an elegant and seamless online store delivering an outstanding user experience.
- Achieved strong user engagement from the first week thanks to smooth navigation and optimized UX.
- Built a distinctive visual presence that strengthens the brand's identity in the market.

Transformation from E Commerce Store to Full Scale
Contracting Company

CLIENT:

United Summit – Originally launched as a Kuwaiti e commerce platform specializing in sanitary ware and interior décor, the brand later transitioned into a contracting company offering comprehensive construction and finishing solutions. The challenge was to evolve the brand identity from a niche online store into a broader corporate presence that reflects its new role as a contracting firm, while maintaining a strong digital presence to attract clients and drive sales in a competitive market.

SOLUTION:

- Designed a new visual identity that reflects the transformation from an online store to a contracting company, alongside managing Meta accounts (Instagram & Facebook) with professional posts and regular advertising campaigns.
- Developed a responsive website using WordPress and WooCommerce, with full SEO optimization, and created/refined commercial content for products and services aligned with the new identity.

RESULTS:

- Increased organic search traffic by **+150%** within the first 3 months.
- Achieved higher engagement on Instagram through targeted campaigns and consistent content.
- Successfully repositioned the brand from an e-commerce platform to a contracting company, with a strong corporate digital presence that boosted inquiries and sales.

TOOLS:

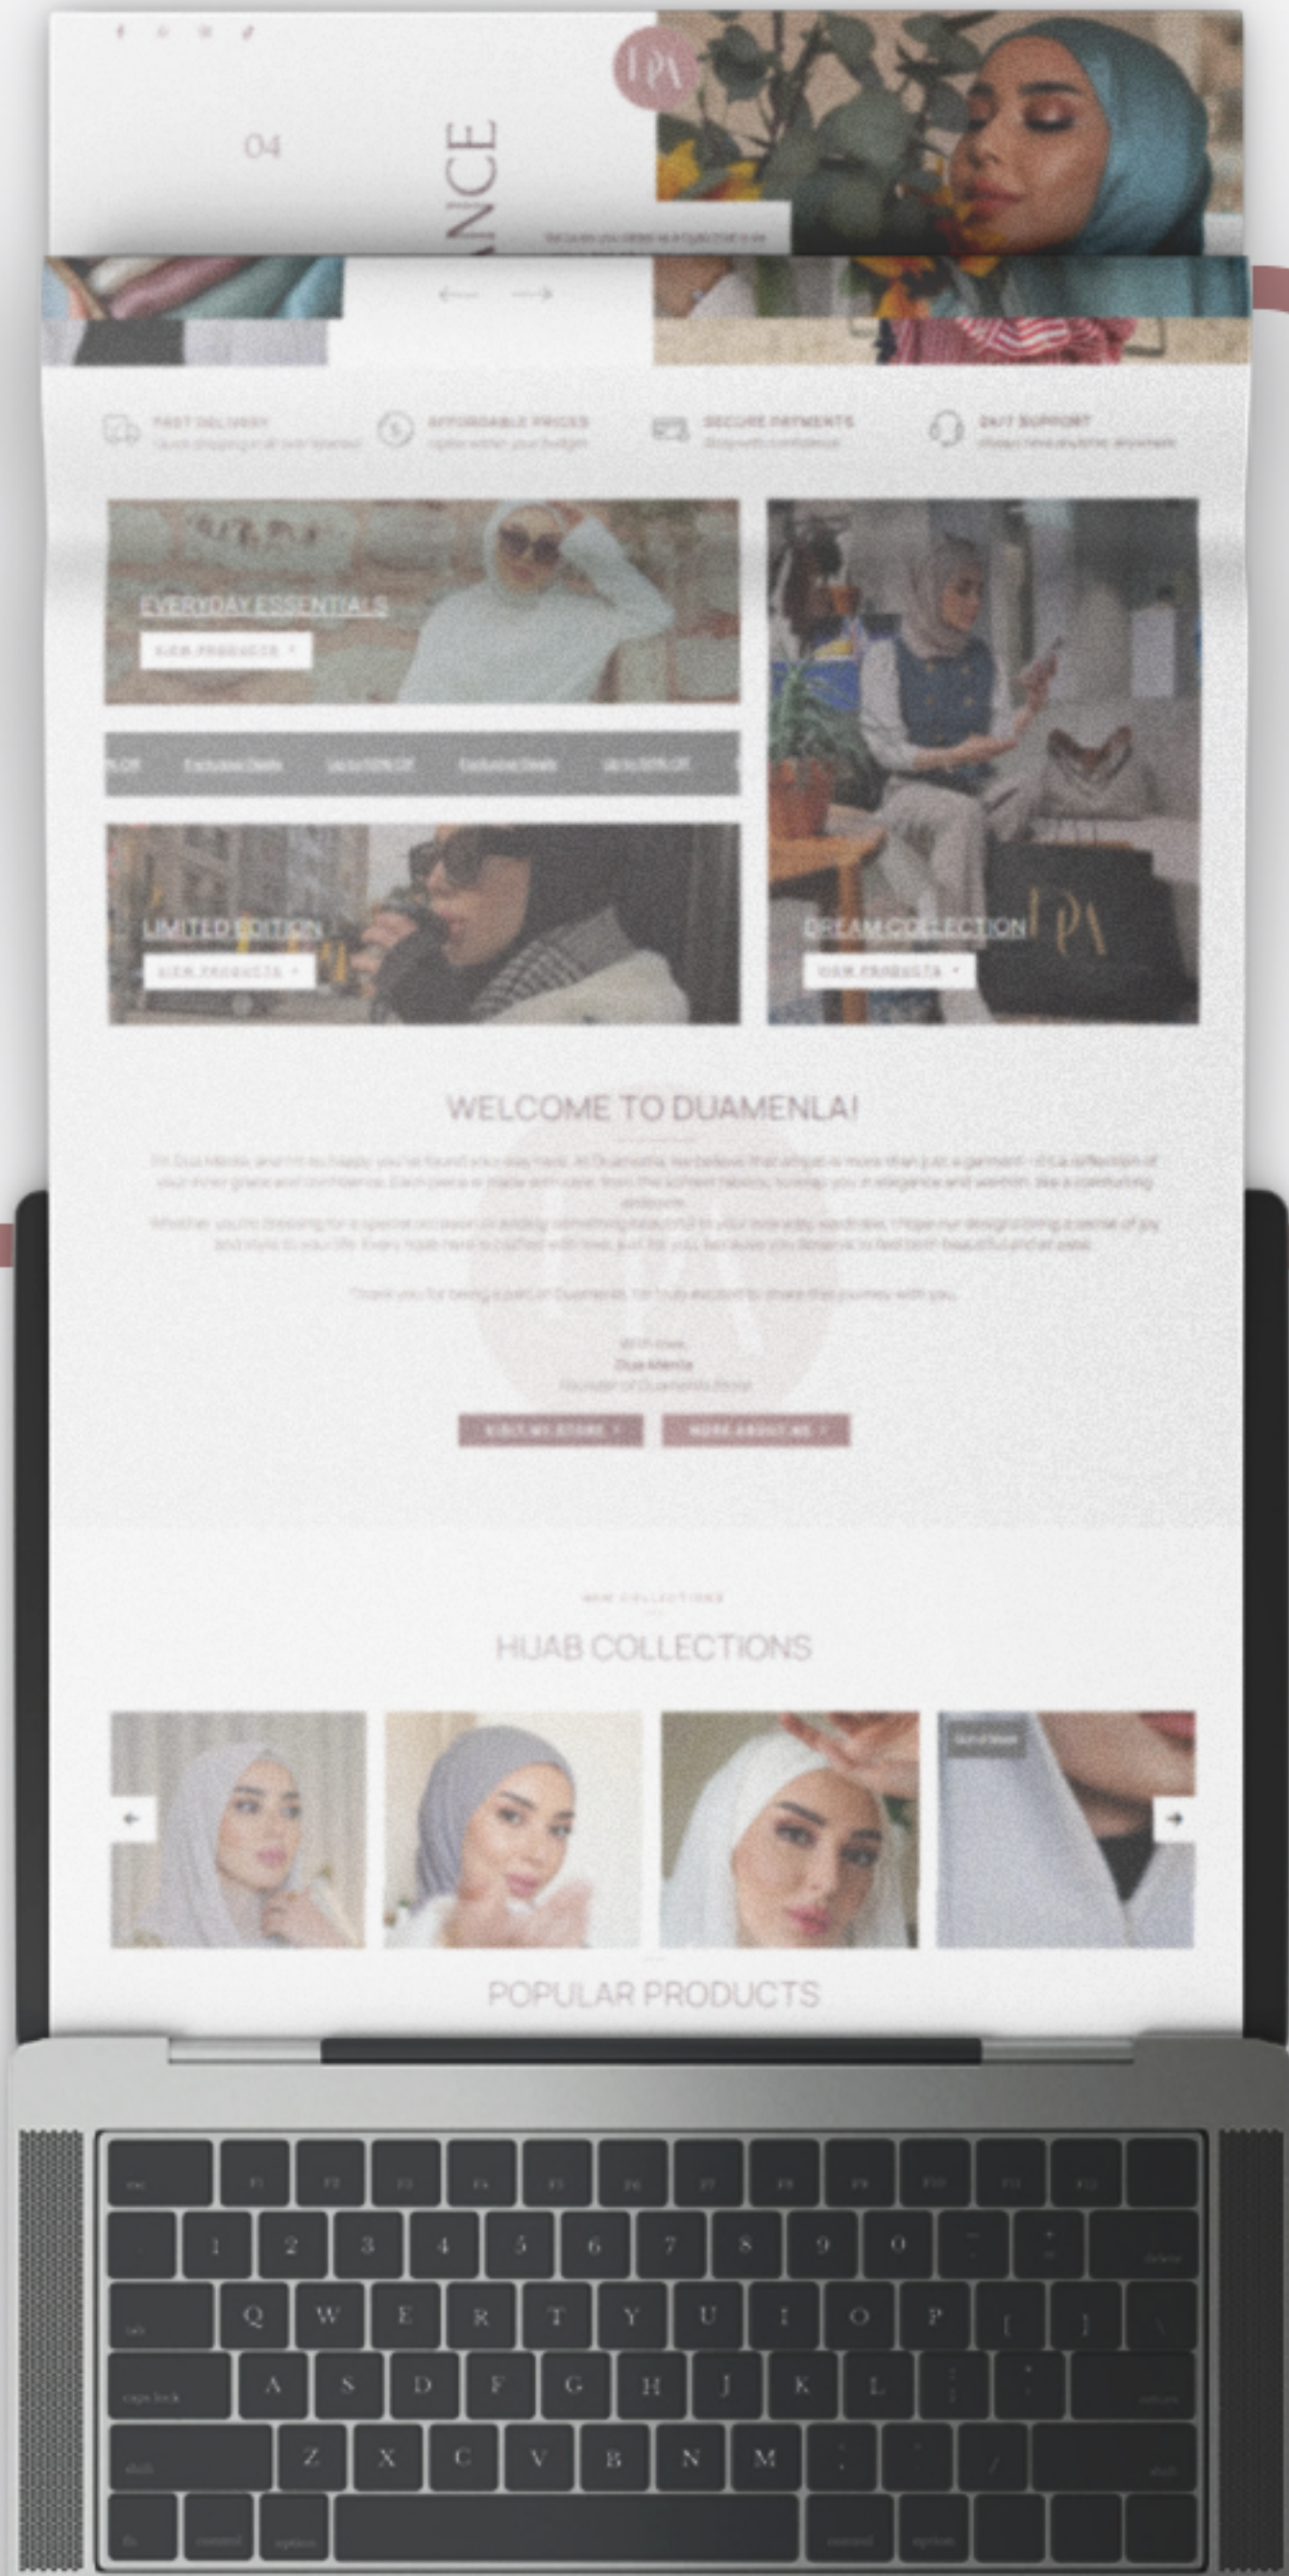

HIJAB & STYLING ART

E Commerce Store for Modest Fashion & Elegant Hijabs

PROJECT OVERVIEW:

E Commerce – Modest Fashion – Women’s Wear
Dua Menla is an online store specializing in modern hijabs, modest clothing, and feminine accessories. The brand partnered with Blue Tech to build a complete digital identity that reflects its vision and to deliver a seamless e commerce shopping experience.

The Blue Tech team designed and developed a fully functional website using WordPress and WooCommerce, structured product categories and filters (Hijabs – Clothing – Accessories), optimized the checkout and shipping journey for simplicity, and prepared SEO ready content architecture to support future digital growth.

CHALLENGE:

To highlight a feminine, modest fashion identity while ensuring easy product navigation and a frictionless online shopping experience.

SOLUTION:

- Designed a logo and visual identity reflecting elegance and simplicity.
- Built SEO friendly content architecture to support expansion and future marketing campaigns.
- Launched a responsive e commerce website using WordPress & WooCommerce with well organized product pages and filters.
- Optimized checkout and shipping flows to ensure a seamless user journey across all devices.

RESULTS:

- Launched an e commerce store that reflects the brand's identity.
- Delivered fast, user friendly interfaces.
- Prepared the platform for future digital campaigns and growth strategies.

PREMYA

**Air Conditioning & Cooling Services Platform in Kuwait
Home Services – HVAC Systems – Digital Marketing**

PROJECT OVERVIEW: Premya is a Kuwaiti company specialized in providing air conditioning and cooling services for homes and buildings. The company partnered with Blue Tech to rebuild its official website and strengthen its digital presence across search engines and social media platforms. The Blue Tech team transformed a static website into a fully integrated service platform that receives customer requests directly. This was achieved by completely redesigning the website and creating well structured service pages and content based on in depth SEO analysis. We optimized keywords, links, and indexing while also managing Instagram and Facebook accounts by publishing organized, targeted content. In addition, we executed recurring ad campaigns aimed at customers in Kuwait to increase engagement, visibility, and service requests.

SOLUTION PROVIDED:

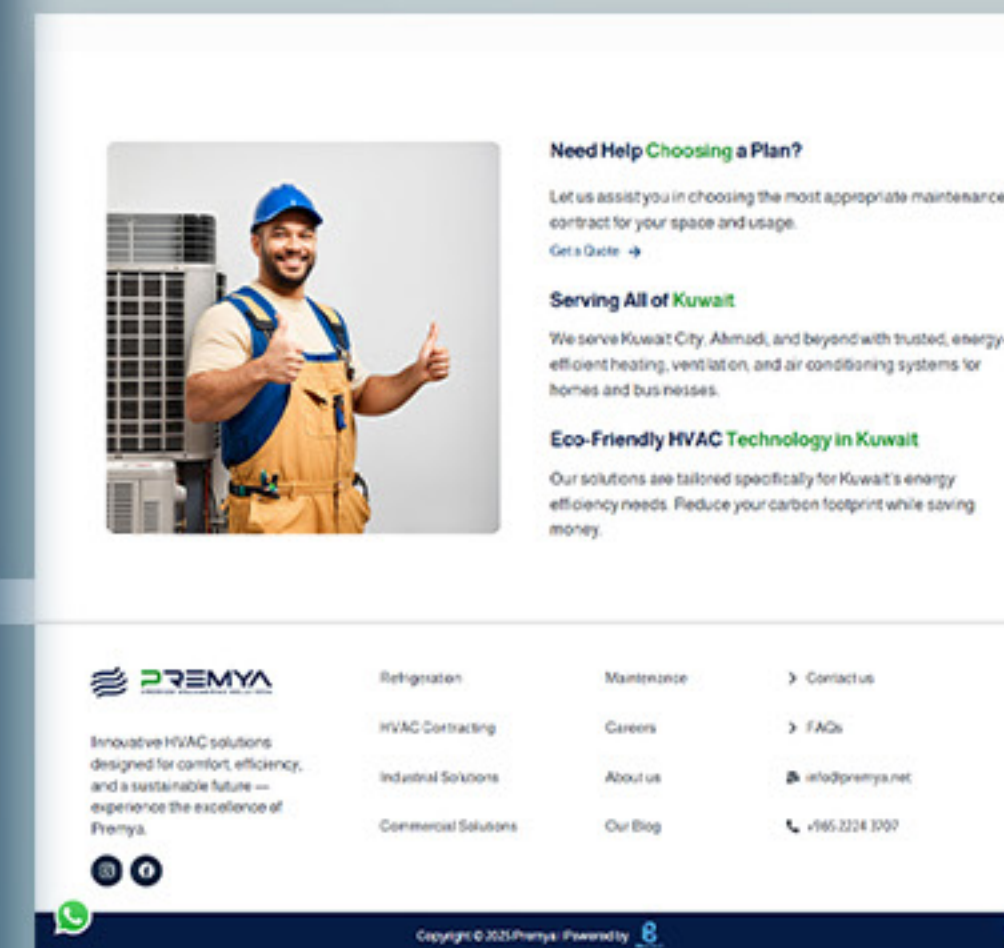

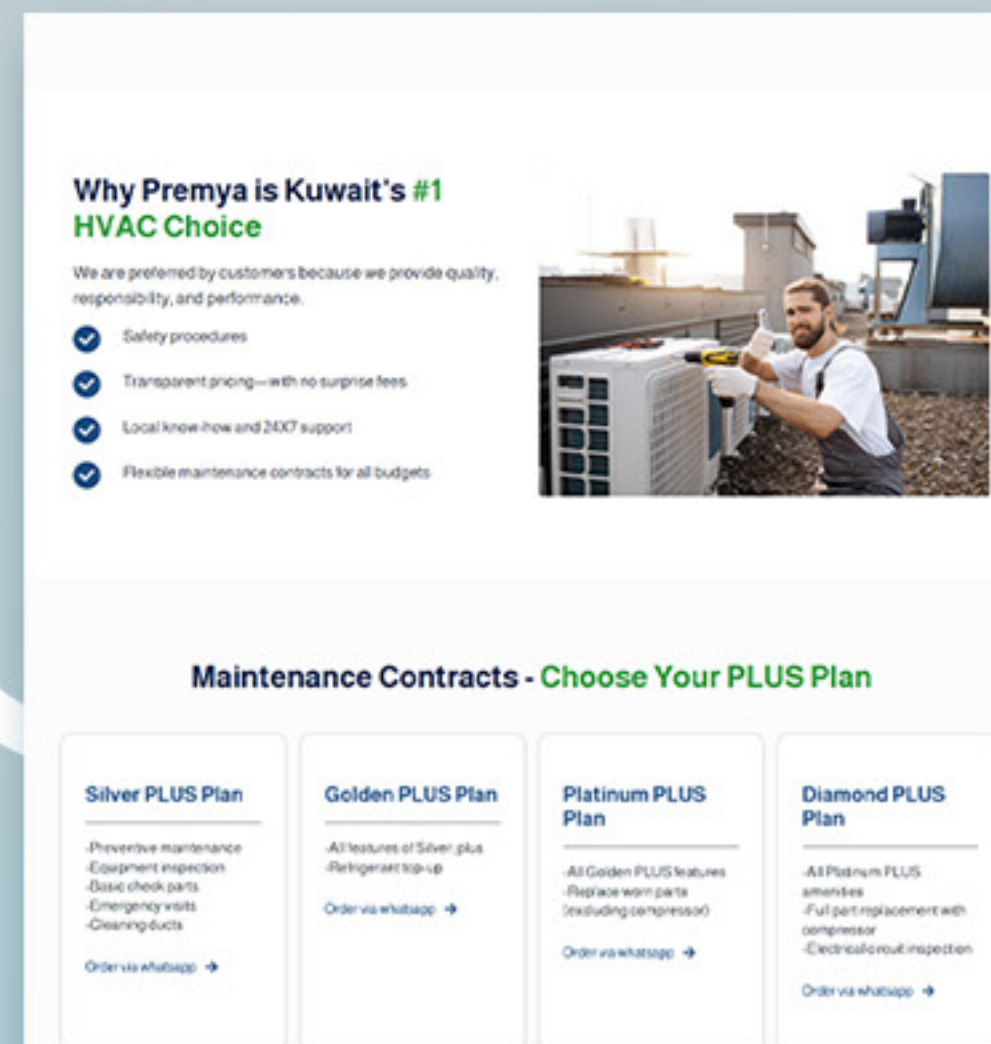

- Complete redesign of the website with a modern, responsive layout.
- Creation of service pages and optimized content based on real SEO analysis, resulting in a significant increase in organic traffic within 60 days.
- Execution of digital advertising campaigns and management of Instagram & Facebook accounts with professional designs and consistent, targeted posting.
- Implementation of periodic paid ad campaigns that enhanced service requests, customer messages, engagement, and visibility across social media and the website.

RESULTS:

60
DAYS

- Significant growth in organic website traffic within
- Increased number of customer messages and service requests through the website and social accounts.
- Clear improvement in social media engagement and advertising visibility.

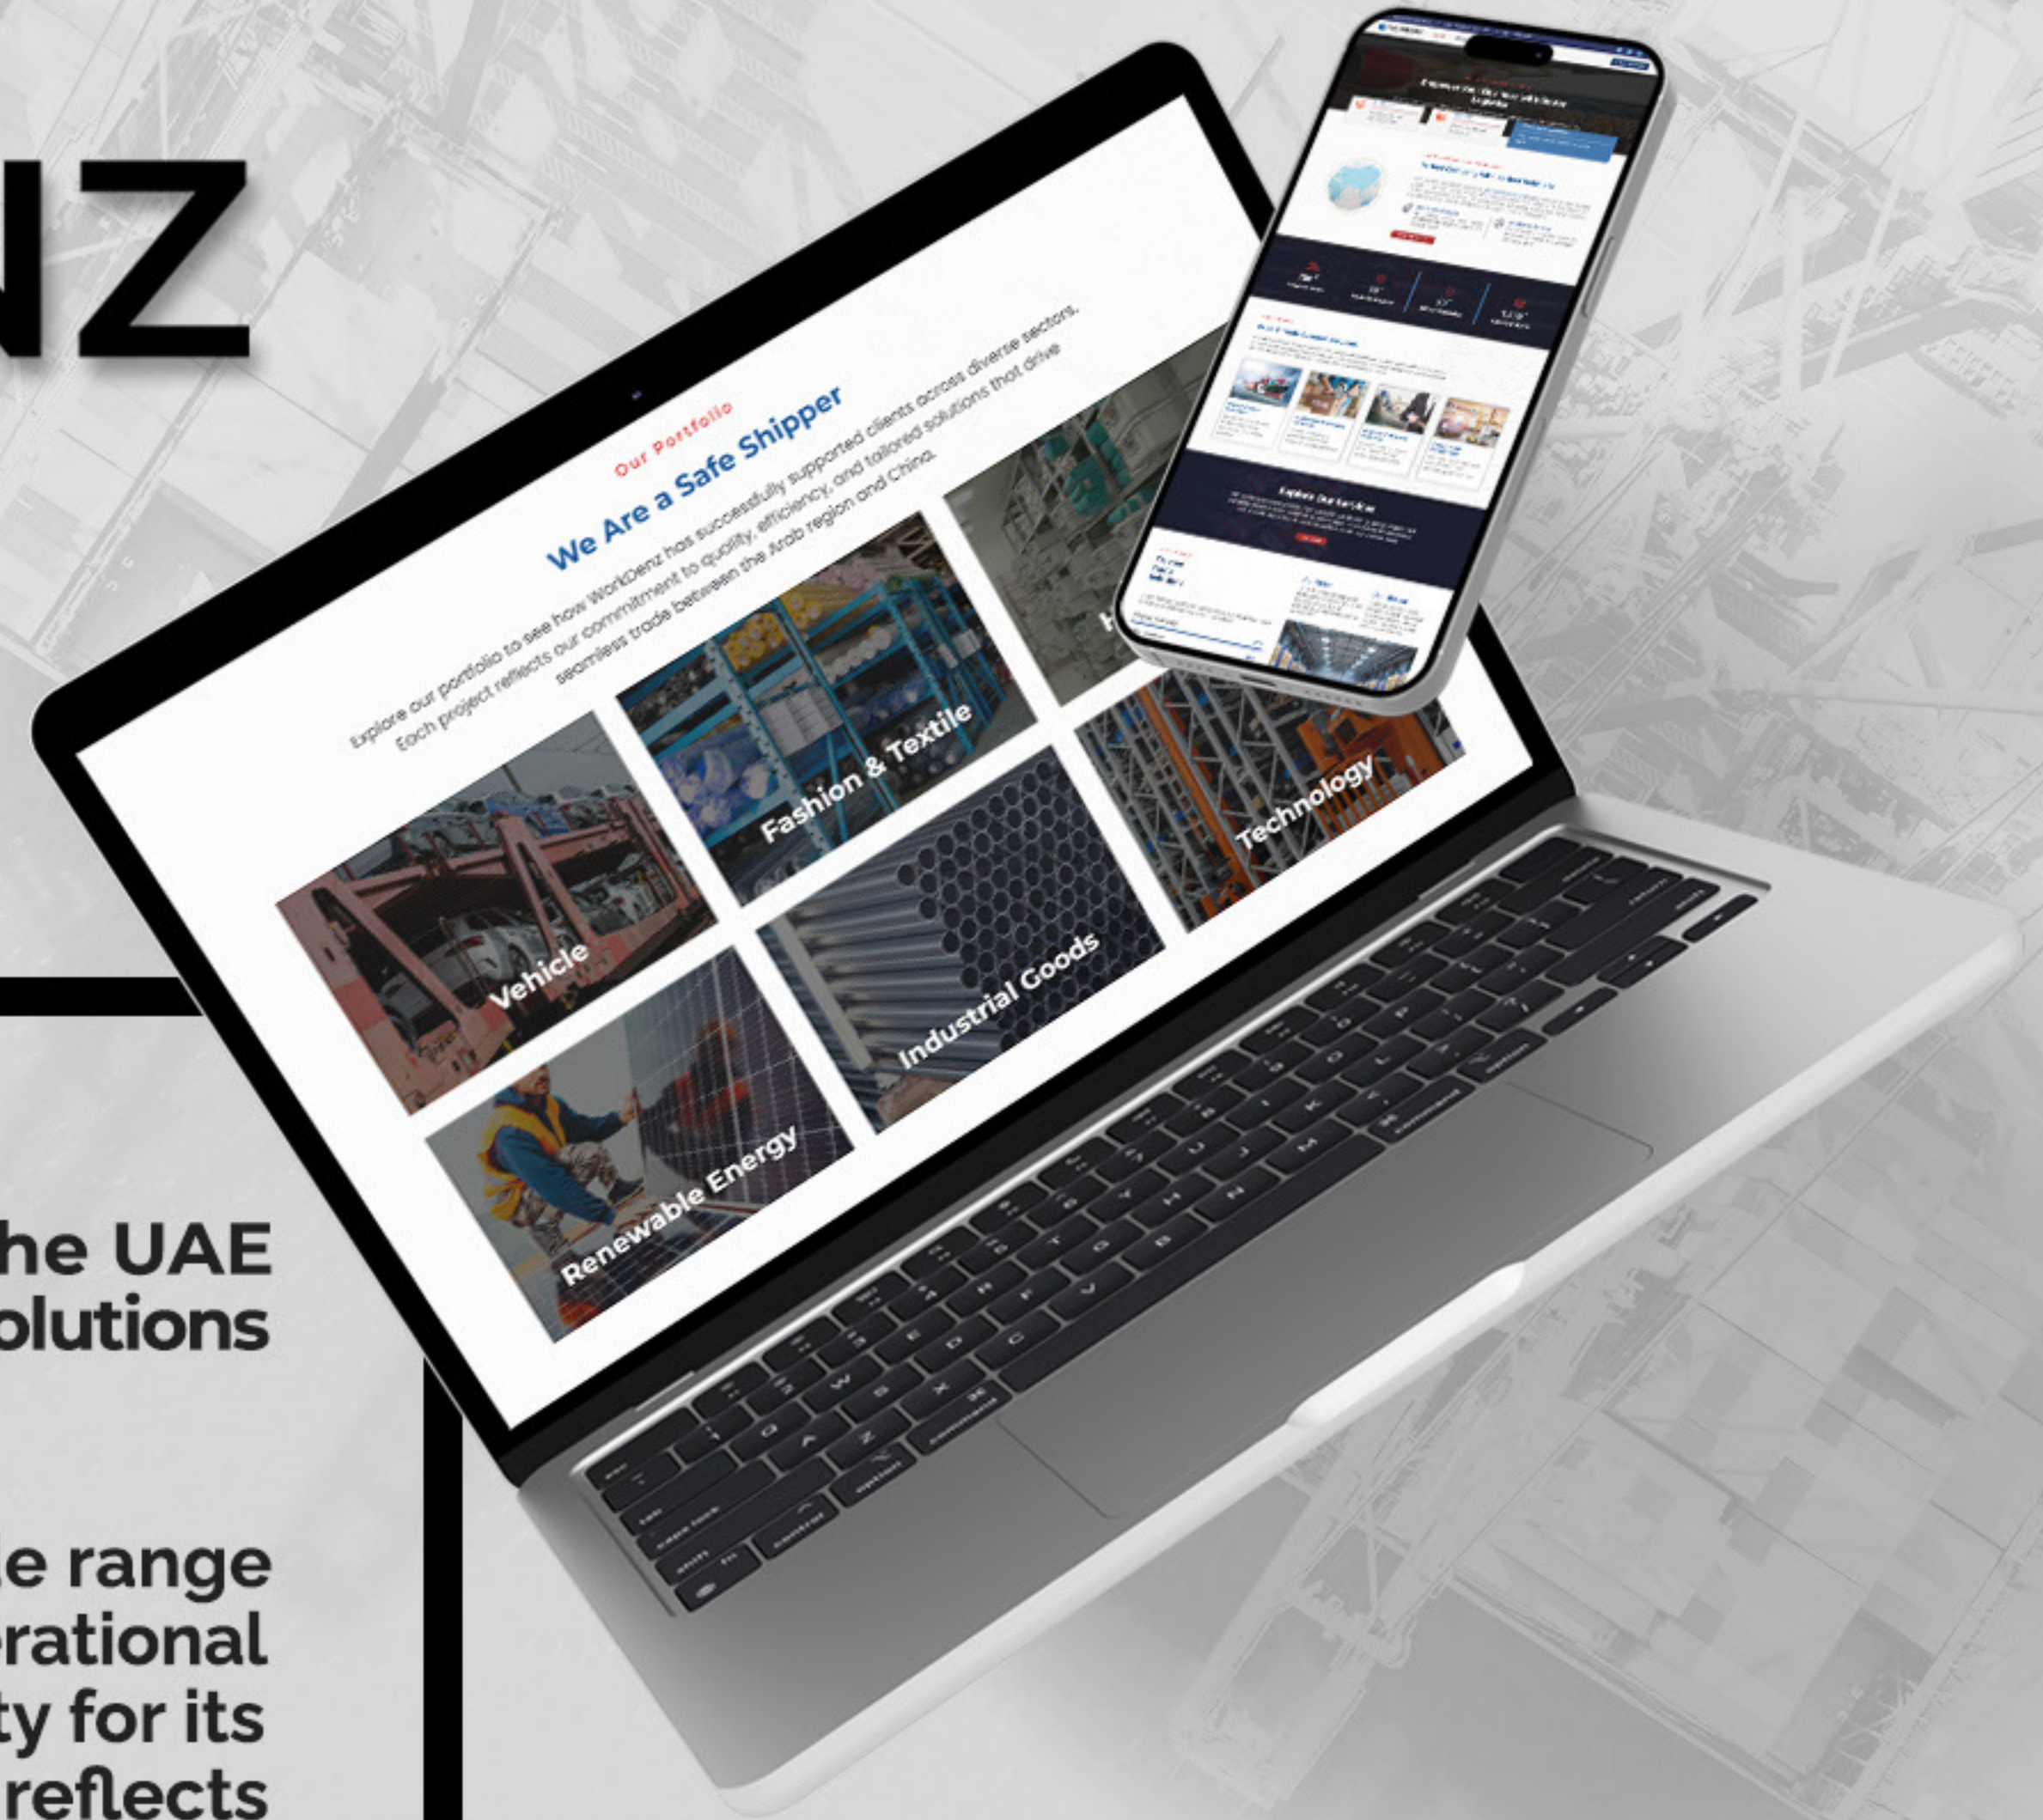

TOOLS:

WORKDENZ

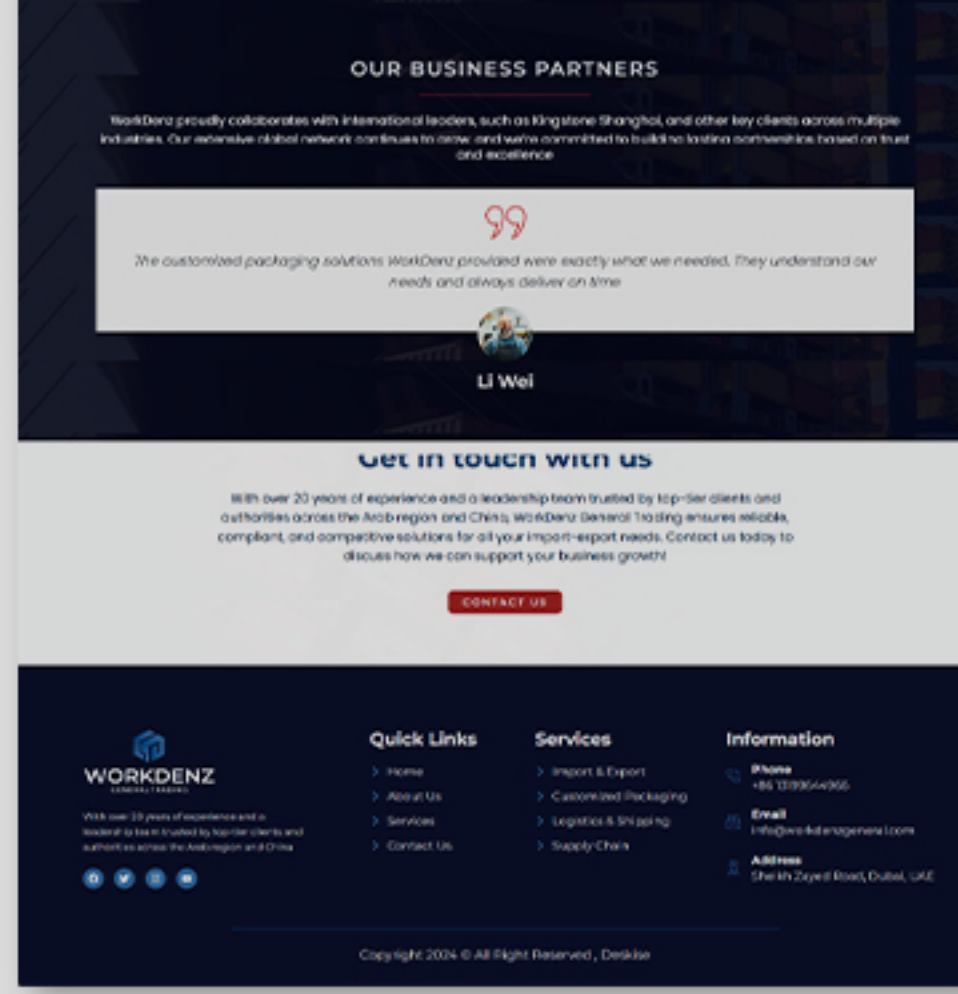

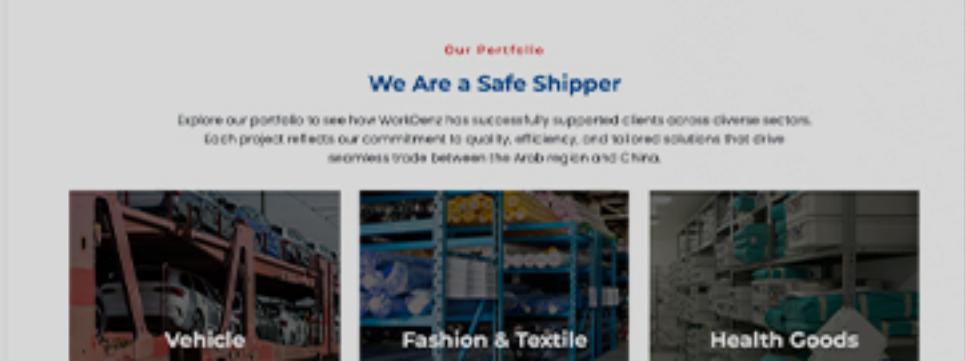

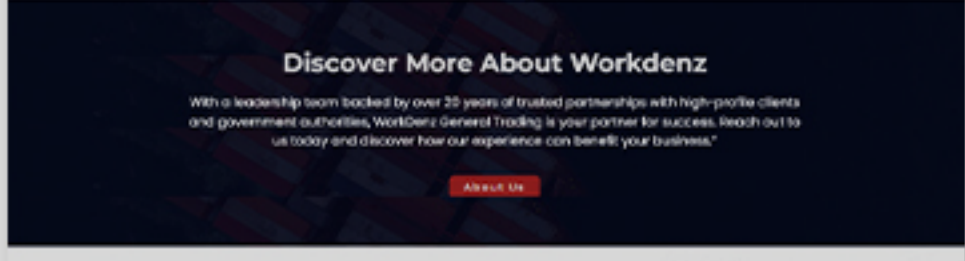

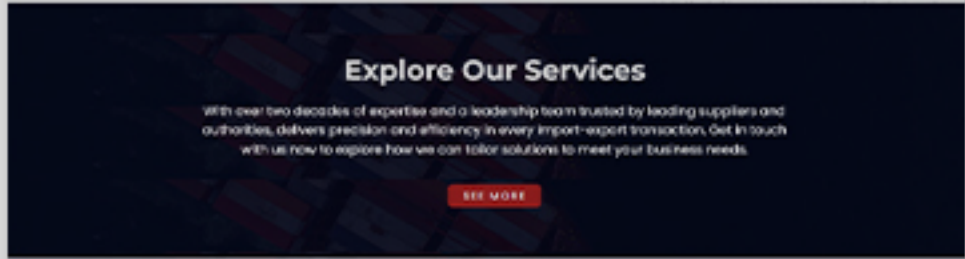

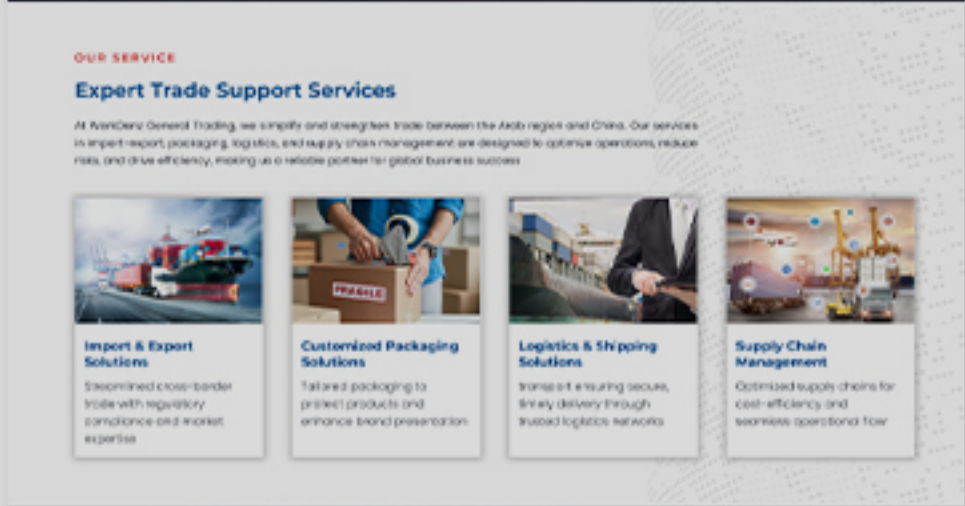

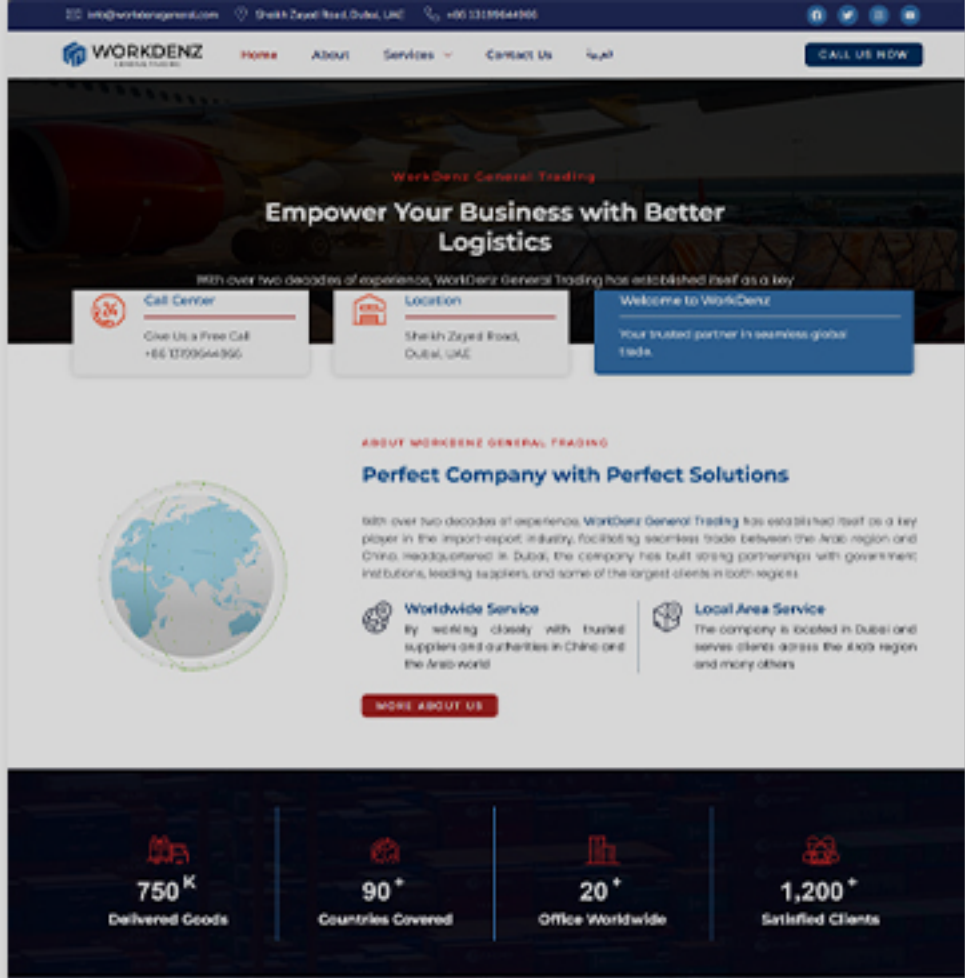

GENERAL TRADING

**Identity & Website for a Multi-Service Company in the UAE
Multi-Activity Companies – General Services – Business Solutions**

CLIENT:

Workdenz General, a UAE-based company offering a wide range of solutions in maintenance, construction, supply, and operational services. The company needed to build a cohesive identity for its diverse activities, along with a clear and fast website that reflects its various services and builds client trust.

SOLUTION:

- Designed a representative logo that reflects the flexibility and diversity of services, and developed a comprehensive visual identity guide (colors, fonts, applications).
- Created a multi-page WordPress website, dedicating a separate page for each sector (trading – contracting – facility services...), and wrote/organized descriptive content to ensure easy navigation and information access.

RESULTS:

- Launched a unified brand identity that strengthens the company's market presence.
- Delivered a clear and user-friendly corporate website.
- Established readiness for future marketing integrations or internal CRM system connectivity.

TOOLS:

Building a Personal Brand in the Educational & Social Field | Saudi Arabia

Personal Branding – Social Media – Educational Content

PROJECT OVERVIEW:

Wafa Ghiba is an educational specialist in Saudi Arabia who provides social and educational content for women and mothers, delivered in a realistic style inspired by her personal experiences. She needed to transform herself into a recognizable personal brand with a clear and distinctive visual identity and establish a consistent social media presence that combines emotion with professionalism—especially since she lacked marketing strategies to strengthen her positioning.

Wafa partnered with Blue Tech to develop a personal brand that reflects her values and connects with her target audience. The Blue Tech team designed her personal visual identity (colors, fonts, symbolic logo), and prepared a unified posting template for all content formats (posts, stories, reels). We also optimized her bio and introduction to deliver her core message in under 3 seconds, and launched monthly content plans covering motherhood and educational themes.

SOLUTION PROVIDED:

- Built a strong and clear personal presence through a designed visual identity (colors, fonts, symbolic logo) and predefined post templates for all formats (posts, stories, reels).
- Enhanced Instagram bio and introduction to communicate her message instantly.
- Implemented monthly content strategies covering education, motivation, and engagement.
- Supported her Linktree setup and provided technical assets to enable future digital expansion.
- Attracted strong female audience engagement thanks to her authentic messaging and appealing visuals, preparing her brand for future launches of courses or initiatives.

RESULTS:

- Built a strong and distinctive personal presence.
- Achieved high engagement from women, driven by authentic content and attractive visuals.
- Fully prepared for launching courses and initiatives through her personal brand.
